2. Development Projects Division is presently operating a training site in the U.S. at which security is controlled by contract guards under the supervision of Agency staff employees. The site uses [REDACTED] an arrangement which is enhanced by the fact that a large number of [REDACTED] personnel will be stationed at the base under Agency detail.

3. In order to assure that the contract guards assigned to the area are readily recognizable and at the same time are clothed in "uniforms" consistent with the cover, it has been proposed that they be outfitted at Agency expense in a uniform manner. To complete the uniform they should also be provided with head covering consistent with the area and with sun glasses. The clothing allowances must cover both winter and summer seasons.

4. It has been estimated that for an annual cost of \$75.00 per individual these guards could be adequately attired. DPD, through its [REDACTED] liaison channels set up to jointly sponsor this training program, is in a position to procure the necessary items. Uniforms will be required for 15 guards.

5. In accordance with paragraph 3, a, of reference regulation, it is requested that the Director of Logistics authorize the
