The above schedule adjusts the rates of overtime shown in the Federal Employees Pay Act of 1945, between the limits of \$2,980 per annum and \$6,440 per annum, which limits remain in effect under the Federal Employees Salary Act of 1948. Thus, in accordance with the formula on page 11 of H.R. Report No. 726, 79th Congress, the new overtime rates may be computed for any number of overtime hours and for any rates of compensation that are at a rate of \$2,980 per annum or more. The overtime rate for 416 hours for any new basic rate of compensation not shown above may be computed by subtracting from \$894 (the overtime rate for 416 hours at \$2,980) 7.6782 per cent of the amount by which such new basic rate is in excess of \$2,980, with the condition that for the basic rates of \$6,440 and over, the overtime rate for 416 hours shall be uniformly \$628.33; subject, however, to section 603 (b) of the Federal Employees Pay Act of 1945, as amended.
