MEMORANDUM FOR

[Redacted]

Subject: Draft Justification for S-1019.

1. Attached please find Enclosure (A), draft of a "Justification" to be given on the record. It is perhaps too short in that it does not go into a point-by-point justification of the Bill. Please feel free to amend it any way you wish.

2. Enclosure (B) outlines a few incidents which I copied verbatim from some speeches of [Redacted]. I did not knit them into your justification as this might entail considerable revision of the paper already approved by the Subcommittee. If you feel they are not apropos, I suggest we forget them.
