Reference is made to [Redacted] memorandum of 13 February 1950 concerning [Redacted] former employee of this Agency. As was indicated in that memorandum, a copy was referred to this Staff and I desire to make particular reference to paragraph 3 thereof.

After due consideration and a review of pertinent material on file in this office, I do not feel that any action with regard to the possible security breach involved should be taken at this time. While the incident is regrettable, I do not feel that it can be corrected in any way nor its repetition avoided by any action we might take. This is particularly true in view of the pathological condition of the subject at the time of and immediately following his resignation from this Agency.

SHEFFIELD EDWARDS
Colonel, GSC
