STATOTHR

1. This case is of considerable interest. The sole drawback is that [REDACTED] experience has been entirely with the Government; whereas what I badly want at the moment is experience in general practice in connection with private industry.

2. This does not rule out [REDACTED] but at present I have under consideration a couple of cases in which the experience is more in line with what I need, and I therefore return the file with no strings attached but with the thought that we may be calling for it again in the future.
