FROM: Ch/D/GL/RR
SUBJECT: Unprocessed Microfilm

20 May 1958

1. Following his return from Europe, [REDACTED] 25X1A9a telephoned me to state that he was forwarding to me an unprocessed microfilm of some new works of potential interest to the GRA. He followed the film, together with a list of the five items covered.
2. D/GL personnel checked the list (copy attached), and found that the four of the five items had been received through our routine procurement channels for Soviet Bloc materials.
3. This small transaction is brought to your attention only to indicate that we feel that our routine channels are quite effective as far as overtly available materials are concerned.
