(3) No Agency students are enrolled in the recently established course in Swahili, the only one offered in the U. S. Government. NEA Division gave no indication of interest and although the DD/I had three people enrolled they were withdrawn before the course was started. The one person taking the Swahili language instruction is from USIA. Even though there is only one student it was believed desirable to present the course in order to refine techniques in preparation for possible future classes.

c. Monthly Enrollment

During the month of March 1,041 persons were enrolled in the Office of Training conducted courses.
