MEMORANDUM FOR: Project Director

SUBJECT : Report on 4035 -- KZYL ORDA Mission

1. Attached is a preliminary report prepared from the tracker film from 4035.
2. Mr. Lundahl has provided the original of this to Mr. Amory, who, I believe, last evening, 13 August, showed it to General Cabell.
3. Nineteen cans of one side of the B camera from 4035 and five cans of the other side arrived last night about 10 o'clock. A joint team of Army, Navy, Air, and CIA immediately went to work on preparing a preliminary report from that dupe positive.
4. I stopped in about 11:30 p. m. at HTA to see how they were getting along, and they seemed to be doing very well. The product looks to me to be of high quality.
5. The remaining cans of the dupe positive on the one side (now incomplete) will be down this morning.
6. A duplicate positive desired by the Air Force as soon as feasible, according to present scheduling, should be available sometime on Thursday.
