MEMORANDUM FOR: Ad Hoc Requirements Committee Members
SUBJECT : Titling of 1400 Series Missions Through 1448

1. In view of the repeated coverage of the Middle East and the large amount of film available, it has appeared essential to discriminate among those missions which need to be titled and duplicated to meet the community's needs.
2. At my request, HTAUTOMAT has screened the material and has prepared the below list of missions in the 1400 series. This list is submitted as a recommendation to the ARC that it agree to the disposition as outlined.
3. It should be pointed out that all missions listed except those in the third column on the right will not only be titled but standing requirements for duplication from HTAUTOMAT and the Air Force will be met. In the case of those missions listed "Retain for Present", the film will be held in HTAUTOMAT without immediate titling and with no reproduction although in due course as titling equipment becomes available to HTAUTOMAT that office will proceed with titling in order to ensure ready access in the event that any member of the community wishes to secure selected duplicate materials.
4. Those agencies that wish to inspect the tracks to which these mission numbers refer and thereby be in a better position to judge the acceptability of this plan should do so directly with HTAUTOMAT.
5. Each participant is requested to inform the Chairman by the close of business Friday, 22 August 1958, if the plan proposed is acceptable, and, if not, to specify in what regard change in plan is desired.
