29 November 1955

MEMORANDUM FOR: Deputy Director of Central Intelligence
SUBJECT : Intelligence Requirements for AQUATONE

Several days ago, General Lewis spoke to you on the above subject, which you and I subsequently discussed. In the light of your views as you expressed them to me, I have drafted a proposed procedure for the determination of intelligence requirements, and of relative priorities among those requirements for the guidance of operations under AQUATONE. This draft is in the form of a memorandum from me to [REDACTED] the Project Operations Officer, who has responsibility for this matter within the Project. I attach a copy herewith to which I would like to obtain your reaction. I hope and believe the proposal is in account with your views. As I have an appointment with General Gaither on 2 December to discuss this matter, I would like to have a word with you about it on 1 December if convenient for you.
