HANDLE WITH TALENT
CONTROL SYSTEMS UNIT

NUMBER	NAME	POSITION	JUSTIFICATION
1	[REDACTED] 25X1A9a	Special Intelligence Officer, Collection Staff/SI	Incumbent serves as office focal point for all COMINT activities. As such he initiates and/or monitors all relationships between OSI and NSA. Because he has not been cleared for TALENT it has been necessary to keep him outside several problems which he normally would have handled: OSI-NSA relations relative to System III tape processing; special arrangements for processing COMINT in order to plan AQUATONE coverage
		25X1B0a	[REDACTED]
		25X1A9a	and their relationships to AQUATONE. Most of the OCI and NSA people with whom [REDACTED] normally deals are TALENT cleared, thus placing [REDACTED] at a disadvantage in his discussions. It is believed that OSI-NSA relations can be served better by having incumbent TALENT cleared.
