1. Request initiated 9 Jan 59.
2. Arrived R/TR 26 Jan 59.
3. Approved 2 Feb 59.

Prior to this time several attempts were made to obtain training. A potential instructor working [REDACTED] was interviewed and it was decided that he was not likely to produce satisfactory results with the materials available. The request for external training was initiated at our request after other possibility mentioned above was rejected by LAS. The initial verbal understanding was to the effect that this was reasonably long-term training which could be arranged in a reasonable length of time and not a "crash" project.
