25X1

These talks are preliminary; I have been trying to clarify objectives and to find out precisely what type of student will enter the course. One interesting problem has already arisen: Since ELINT is merely one form of S&T collection, the student in the proposed course will be ignorant of the opportunities for ELINT collection unless he has had the S&T course and knows something about what he is supposed to collect.

A clearance for special intelligence will be necessary before I can get very far with the literature or the equipment of ELINT. [Redacted] tells me that since I am renewing an old clearance, the renewal should come through by 2 June, 1959.
