MEMORANDUM FOR: Project Director

THROUGH : Project Director of Administration *JLJ*

SUBJECT : Briefing of HTAUTOMAT Personnel

REFERENCE : Memorandum for Project Director Dated  
2 May 1956 from A.C. Lundahl (SAPC-5875)

1. The referenced memorandum (copies 1 and 2 attached for signature) has been reviewed and found within the security concept governing Project AQUATONE, Project HTAUTOMAT and TALENT CONTROL SYSTEM.

2. The categories of briefing and knowledgeability outlined by Mr. Lundahl adhere completely to our Project security procedures and accordingly it is recommended that your concurrence be expressed in the proposed establishment of these levels of briefing within HTAUTOMAT.

3. It is the personal view of the undersigned that the officials of HTAUTOMAT will experience a minor difficulty in the delineation between individuals in categories "T" and "D". However, this system of briefing will afford Project AQUATONE operational information a degree of protection and is considered desirable from our point of view. A redeeming factor in any such difficulty is the comparatively small number of individuals falling into the "T" and "D" categories.

4. In the field of Project AQUATONE approval of the various briefings of officials of HTAUTOMAT, it is anticipated we will have little difficulty once we have established a routine procedure. In line with your earlier comments, the Project Security Officer for HTAUTOMAT initially brings requests for AQUATONE approval to the attention of the undersigned. Our Project concurrence in briefings will
