of bi-weekly reports from [redacted] initiated largely at the request of I/GM, on missile deployment in the European Satellites.

- f. A series of regular weekly meetings was started in June between Chief, GMD/OSI, Chief, I/GM and senior members of both organizations to exchange views and improve coordination on the growing number of major substantive problems affecting the research of both offices. Among the topics discussed at the first two such meetings were means of improving the guided missile collection effort; the broad outlines of the CIA contributions to NIE 11-8-59 and 11-5-59, as well as the relationship between the two estimates; and exploration of a common ORR/OSI approach on implementing the practice of CIA and ATIC analysts exchanging views in accordance with recent CIA-ATIC agreements.
- g. Members of I/GM met with Major Likens of ACSI and interested OCI observers to review in detail the basis for the I/GM critique of the ACSI paper on Soviet missile deployment in East Germany published by the Special USIB Committee on the Berlin Situation. Although Major Likens was not prepared to alter his interpretations of the evidence considered by ACSI in preparing the original paper, it was demonstrated to him that additional evidence was available which cast doubt on some of these interpretations.
- h. Chief, I/GM participated in a meeting chaired by the DD/I to discuss coordination of the intelligence community's requirements for the Vice President's forthcoming visit to the USSR.
- 25X1X7 i. Chief, I/GM represented ORR at a meeting between [redacted] and representatives of the Board of National Estimates and OSI, at which 25X1A9a [redacted] outlined his current views on the Soviet ICBM program. These views will be circulated for further comment in written form in the near future, and will be available to the office for detailed examination.

2. Status of Projects:

- ✓ a. By virtue of several hundred hours of overtime during the past few weeks, the detailed analytical and computational work required for the deterrent vs. strike force
