15 April 1963

MEMORANDUM FOR THE RECORD

SUBJECT: Missile Gap

1. Chet Cooper, DD/I, called and advised that at the White House staff meeting of 15 April concern of the President in the "missile gap" question, primarily from a domestic, political point of view, was indicated. The President has asked for some information about the Congressional testimony during the period 1958-60.

2. Mr. Cooper asked that we provide whatever our files indicated with regard to Congressional appearances on this subject: who made them, what was covered, and before what committees. As to the time, Mr. Cooper indicated this weekend would probably be appropriate.
