

FOIA b6

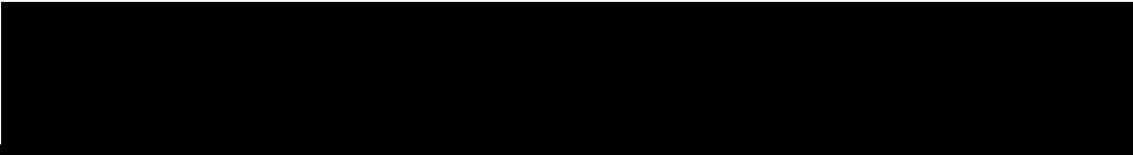

July 17, 1962

Dear Tracy:

FOIA b3a

 plans to be in and about Washington and the East Coast the week of July 23d. I think it would be quite important for you to see him.

FOIA b3a

FOIA b3a

 is an extremely bright and imaginative physicist whose staff includes a number of PhD's and other highly skilled creative engineers and scientists. The company is concerned with the space effort and some very advanced devices.

Dick and his group have been developing, through their own efforts without any Government sponsorship, a device which will eventually be so strictly classified that I am aware only of its most general nature, and it would be inappropriate for me to discuss it. I have therefore urged Dick to telephone you, as soon as this can have reached you, for an appointment. I told him to phone you at your house as I do not have your business address or phone.

There is real delicacy in the subject. Naturally it would not be proper to wander in to just anyone and start telling his story. Of course, he has endeavored to make some contacts in advance but I want to be sure he reaches the right place and in short order. In addition this is only a part of his business activities and he cannot afford to waste a lot of time being shuffled around until he reaches the right place. I am therefore most anxious for you to see him if possible, and if you cannot see him to make sure that he sees the right person.

FOIAb3a Dick is a fine person and completely reliable in every way.
Despite my personal interest [REDACTED]
I honestly think I am acting in your best interests in
endeavoring to make these arrangements.

With all best wishes,

TJD:s

Dr. Scoville :

Pete - Here is a

follow-up on

my memo. re [REDACTED] & [REDACTED]

FOIAb6

FOIAb3a

FOIAb3a

[REDACTED] - Thanks for

anything that you can
do. My secretary will be
checking about an appoint-
ment as [REDACTED] will probably
call her Tuesday. Best Tom
