

**SUBJECT: Proposed Revision to Attachments B and C of
USIB-D-34.4/2**

1. Attachments B and C of USIB D-34.4/2 should be modified and in their place a substitution made which makes it the responsibility of USIB to study the problem separately and produce a specific set of responsibilities and procedures to accomplish the desired end.

2. Paragraph (h) of Attachment B would be replaced by the following:

"The USIB should appoint a study group composed of senior representatives from appropriate agencies of the DOD and the CIA responsible for intelligence R&D, to establish mechanisms for the coordination of R&D on new technical collection methods intended to meet National and interdepartmental intelligence needs. (See Section 7)"

3. Paragraph 7 of Attachment C would be modified as follows:

a. Paragraph (f) - Delete "normal".

b. Add a new Paragraph (g) - "The USIB should accomplish a special study to provide mechanisms to accomplish the following:

(1) Coordination of plans for new technical collection methods intended to meet National and interdepartmental intelligence needs.

(2) Methods for insuring the proper consideration of data processing and dissemination.

(3) Methods for assignment of responsibilities to develop and test new systems.

(4) Integration of multiple collection systems on new platforms.

CONFIDENTIAL

(5) Means of coordinating decisions on the operational employment of such systems.

(6) A coordinated funding mechanism which would satisfy the Community's needs."

c. Re-letter Paragraph (g) to (h).
