O.R.E. Notice No. 40

10 September 1948

SUBJECT: Violations in "M" Building Parking Lot

Parking violations in "M" Building Parking Lot have increased to such an extent that serious inconvenience is being caused those having assigned spaces. The majority of such violations are incurred by individuals not assigned spaces in the area and positive action is planned for such violators. However, there is a growing tendency among those who do hold assigned spaces to take the most convenient vacancy when their own spaces are being illegally occupied. Such action by displaced assignees results in a chain reaction when assignees, arriving later, resort to the same practice. Therefore, restraint is urged upon those who find their own spaces so occupied. Consideration for others assigned spaces within the area dictates parking temporarily outside of the parking lot until action by the Administrative Staff and the Services Branch, A&M results in the removal of the offending vehicle.
