

6 November 1958

MEMORANDUM FOR: Chief, Analysis Branch

SUBJECT : Dissemination of JPRS Publications

REFERENCE : My memo dated 17 October 1958, same subject.

1. Mr. O'Dette of NSF has agreed that it is no longer necessary to disseminate JPRS documents to NSF. He stated that they are receiving copies directly from JPRS and if any are missed they can easily be identified by reference to the CTS and requested from JPRS.

25X1

25X1 2. The dissemination of JPRS documents to [redacted] is controlled by and under the direction of the Release Section in accordance with pertinent directives and regulations. In following the dissemination policy outlined in the referenced memorandum, you should consider that JPRS documents disseminated to the Release Section are being disseminated within the intelligence community; any further dissemination made or directed by the Release Section is entirely a responsibility of that section.

3. Any requests from non-USIB Agencies or non-governmental organizations for copies of JPRS documents should normally be referred to JPRS (or the Library of Congress) for service. If there are unusual circumstances such as for research work in connection with the NIS or other intelligence projects, the requests should be referred to this office.
