MEMORANDUM FOR: CIA Librarian

SUBJECT : Nodex Standard - Classified Translations

1. Unclassified translations are not indexed into the OCR Intellofax System because of [redacted] Dex File and the Consolidated Translation Surveys. However we have been including classified translations.

25X1

2. Since the security classification of a document does not determine [redacted] indexing of the report, we will no longer index classified translations into the Intellofax System.

25X1

3. Please indicate your concurrence of this change by signing a copy of this memorandum and returning it to me.
