3 May 1963

MEMORANDUM FOR: Chief, Physical Security
THROUGH : Chief, Administrative Staff, CR
SUBJECT : Possible Loss of Classified Material

1. On 28 February a package which should have contained 57 copies of Supplement 160 of the IIS (Secret) was delivered to ACBI. About a week later a phone call was received in Document Division indicating that the package contained only 5 copies. A document receipt received by DD was similarly annotated.

2. Several other agencies on the distribution list were contacted to see if the 52 copies might have been misdirected, but with no success. A written statement was requested from ACBI, but it was delayed by the absence on TDY of the principal clerk concerned with the incident. The attached letter from [redacted] was received April 30th, but as noted in paragraph 1 above, the receipt returned to DD had already been annotated by ACBI.

25X1

3. It is the opinion of Printing Services Division that in all likelihood the missing 52 copies would have been inadvertently retained in the printing over-run which is destroyed after one week.
