26 June 1964

MEMORANDUM FOR: Assistant Director, Central Reference

SUBJECT : Dissemination Points Used For Intelligence Documents Received by Document Division  
25 May - 5 June 1964

1. Intelligence Documents (Information Reports and Publications) received in DD/OCR are screened and disseminated in accordance with the "reading requirements" registered with the Document Division. These requirements cover over 200 points within CIA and in the case of CIA information reports, 28 additional points outside CIA.
2. However, any one document does not go to all the dissemination points; on the average it goes to only 3 to 15 points within CIA and in the case of CIA Information Reports to 4 additional points outside CIA.
3. The data listed below show the number of dissemination points by source of documents received during the period 25 May - 5 June 1964. In the case of information reports for CIA, Army and State only about 10% of the receipts was included in the study. This 10%, however, was considered to be representative.
