PRECONTRACT APPROVAL RECORD
(PART TWO)

CONTRACT

GN-8651

The services and equipment being procured by this Contract No. GN-8651 are in furtherance of the HAWKING Program(s), the nature of which cannot be publicly disclosed for security reasons. The Contracting Officer therefore determines that this procurement must be accomplished by negotiations pursuant to the authority of Section 3(a) of PL 81-110 and Class Determination and Finding, OXC 2122, signed by the DDCI on 15 October 1961.

Certification of funds for this contract will be handled under the procedure approved by the Director of Central Intelligence on 15 December 1956 which, in effect, results in all covert expenses involving issuance of Treasury Checks being accumulated in a separate account within the Finance Division. The amounts in this account will be periodically scheduled for certification of the vouchers by the Director. This procedure eliminates the necessity for a separate certification of authority under Section 8(b) of Public Law 110, 81st Congress (formerly 10(b) - see 85-507 dated 7/7/58) for each contract.

The following comments describe the procurement hereby effected, the terms and provisions generally of this contract/amendment, and a resume of major issues negotiated:

This firm fixed price contract is the result of the receipt of an unsolicited proposal presented by the Contractor for development of a special IR Jammer for use against anti-aircraft and air to air rockets. The contract pays for the further engineering, testing, and evaluation of the techniques developed by the Contractor. The amount of this contract is substantially below the actual cost to the Contractor; however, he looks forward to the production of this equipment for profit. It is envisioned that this jammer will become standard equipment on the HAWKING vehicles, and potentially on all combat aircraft.

SCHEDULE

PART I - MATERIAL AND SERVICES TO BE FURNISHED

Item 1

The Contractor will provide services and materials to study, plan, analyze, design and evaluate a prototype infra-red countermeasure device which can be used as a flyable breadboard for initial testing capable of countering IR homing missile. Said effort will be accomplished in accordance with Contractor's document entitled "Special Jammer Technical Memorandum" dated 12 August 1964 incorporated herein by reference.

Item 2

The Contractor will provide services and materials to develop a breadboard equipment which upon receipt of pulsed signals from a Convair Simulator will generate a jamming program to degrade simulated radar performance. The effort and results will be accomplished in accordance with the Contractor's document entitled "Technical Memorandum Sam Jammer" dated 26 August 1964 and incorporated herein by reference.

Item 3

Deliverable Items Under Item 1 above:

- a. Letter Progress Reports in three (3) copies as of the end of each month during the life of the Contract.
- b. A final report in three (3) copies containing complete details of the test program and the results obtained therefrom.
- c. A laboratory model of the IR Jammer which is capable of producing the modulations synthesized in the analysis and experimental program.
- d. A handbook of operating and maintenance instructions for the delivered IR Jammer.

Item 4

Deliverable Items Under Item 2 above:

- a. Letter Progress Reports in three (3) copies as of the end of each month during the life of the Contract.
- b. A final report in three (3) copies containing complete details of the development and evaluation program and the results obtained therefrom.
- c. Engineering services to support 30 days of actual simulation testing exercises at Ft. Worth, Texas.
- d. A breadboard model of the Jammer to be delivered in operating condition to General Dynamics/Ft. Worth on or before 12 October 1964.
- e. Consultation services to help evaluate the data obtained from the simulation program as required.
- f. A complete test plan for synthesizing and evaluating the best mode of operation utilizing the General Dynamics/Ft. Worth simulator.

PART II -- DELIVERY SCHEDULE

Deliverable items will be delivered in accordance with the schedules contained in the Phasing Chart and Milestones schedule contained in the Contractor's documents entitled "Special Jammer Technical Memorandum" dated 12 August 1964 and "Technical Memorandum Sam Jammer" dated 26 August 1964. It is contemplated that all work shall be completed by 31 December 1964.

PART III -- INSPECTION AND ACCEPTANCE

All studies, supplies and services to be furnished under the Contract shall be shipped f.o.b. destination in accordance with shipping instructions as may be provided the Contractor by the technical representative of the Contracting Officer. Inspection and acceptance shall be made at destination.

PART IV -- FUNDS ALLOTTED, CONSIDERATION AND PAYMENT

For the purposes of this Contract there has been allotted the amount of \$170,000.00 which, in accordance with Clause 7 of the General Provisions, the Government will pay the Contractor upon satisfactory completion and acceptance by the Government of the studies, services and supplies delivered hereunder. The Contractor shall submit evidence of satisfactory completion with the invoice in order that payment may be made. Payment will be made in one lump sum.

PART V - WAIVER OF REQUIREMENTS OF GENERAL PROVISIONS

Notwithstanding the requirements of any of the General Provisions of this contract to the contrary, whensoever, the Contractor, in performance of the work under this contract, shall find the requirements of any of the clauses of the General Provisions are in conflict with security instructions issued to the Contractor by the Contracting Officer or by his authorized representative for security matters, the Contractor shall call the attention of the Contracting Officer to such conflict and the Contracting Officer or his duly authorized representative for security matters shall (i) modify or rescind such security requirements or (ii) the Contracting Officer shall issue to the Contractor a waiver of compliance with the requirements of the General Provisions conflicting with such security requirements. Any waiver of compliance with the General Provisions of this Contract issued by the Contracting Officer shall be in writing, except that the approval by the Contracting Officer of any subcontract issued hereunder by the Contractor shall be deemed to constitute approval of waiver of any clause of the General Provisions in conflict with the stipulations of such subcontract.

PART VI - SPECIAL SECURITY RESTRICTIONS

The Contractor shall not reveal (i) the specific nature of any details of the work being performed hereunder or (ii) any information whatsoever with respect to the department of the Government sponsoring this contract and the work thereunder except as the Contractor is directed or permitted to reveal such information by the Contracting Officer or by his duly authorized representative for security matters, and notwithstanding any clause or section of this contract to the contrary, the Contractor shall not interpret any clause or section of this contract as requiring or permitting divulgence of such information to any person, public or private, or to any officer or department of the Government without the express consent of the Contracting Officer or his duly authorized representative for security matters.

PART VII -- ALTERATIONS IN SCHEDULE

**The following alterations were made to this SCHEDULE
prior to execution of this contract:**

Contract No. GN-8651
AF33(657)-13731

This is to certify that, to the best of my knowledge and belief;

- (i) complete (pricing data) and (cost data) current as of 25 September 1964.

(Date)

have been considered in preparing the Proposal and submitted to the Contracting Officer or his representative:

- (ii) all significant changes in the above data which occurred since the aforementioned date through 25 September 1964 have been similarly (Date)

submitted; and no more recent significant change in such data was known to the undersigned at the time of executing this certificate; and

- (iii) all of the data submitted are accurate.
