MEMORANDUM FOR: ✓ Assistant Director, Computer Services
Assistant Director, Elint
Assistant Director, Special Activities
Assistant Director, Scientific Intelligence
Assistant Director, Research and
Development
Director, Foreign Missile and Space Analysis
Center

SUBJECT : Report to the President's Foreign
Intelligence Advisory Board

1. This Directorate submits to the White House an annual report of progress made in carrying out recommendations made by the President's Foreign Intelligence Advisory Board (PFIAB). In order to provide material for the report due in late August, your thoughts and statements on the below listed items are requested. Material which reflects additional accomplishments or facts should be provided and may, subject to approval of the DD/S&T, be included in our report.

2. "Information concerning major intelligence-related activities including the following (identifying in each instance, where applicable, the governing National Security Council Intelligence Directives, Director of Central Intelligence Directives, or other national policy directives, pursuant to which such activities are performed)":

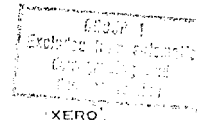

a. Training of intelligence personnel (OEL and OSA: discuss training at [redacted])

25X1A

25X1C

b. Intelligence collection requirements. (Coordination, formulation, and tasking of requirements generated internally or by other agencies for purposes of meeting intelligence needs.)

SUBJECT: Report to the President's Foreign Intelligence
Advisory Board

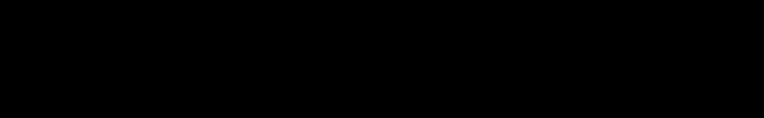

- c. Intelligence collection activities in which your Office participates or provides guidance.
- (1) Scientific and technical intelligence (SIC)
 - (2) Guided missile and astronautics intelligence (GMAIC)
 - (3) Atomic energy intelligence (JAEIC)
 - (4) Photographic intelligence (collected by means of satellites, manned aircraft, drones, agents or other resources).

25X1A

- (5) 
- (6)  Programs
- (7) 

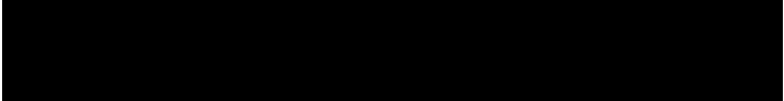

- (8) Signals intelligence
- (9) Geographic and geodetic intelligence
- (10) Order of battle intelligence (e.g., ground, naval, air, radar).

25X1C

- (11) 

- (12) Clandestine agent collection.
 - (1) Support of S&T efforts by DD/S&T

25X1C

- (13) 

- d. Screening of raw intelligence. (Procedures employed in the field and at headquarters including description of programs designed

SUBJECT: Report to the President's Foreign Intelligence
Advisory Board

to reduce unessential, duplicative reporting.)

e. Intelligence production.

- (1) Current intelligence analyses. (Including organizational and procedural arrangements in the field and at headquarters; procedures for timely identification and exploitation of early warning and indicator-type data concerning developing crisis situations warranting prompt consideration at highest levels (government).)
- (2) National and Special Intelligence Estimates. (Support to and participation in the preparation of National and Special Intelligence Estimates for use in the national policy-making process.)
- (3) National Intelligence Surveys. (Support to and participation in the preparation of National Intelligence Surveys, including the status of implementation of NIS production schedules to meet national and military requirements.)
- (4) Other significant intelligence productions. (Identification of intelligence publications produced on a regularly scheduled basis for either inter-agency or intra-agency consumption.)

f. Protection of sensitive U.S. Intelligence data, sources and methods. (Specific programs which are designed to afford this protection and which are additional to the general programs outlined in the counter-intelligence section of the annual report:

- (1) Controls and compartmentation of particularly sensitive intelligence data and techniques.

SUBJECT: Report to the President's Foreign Intelligence
Advisory Board

- (2) Controls on releases of classified information to foreign governments, officials, and international bodies.
- (3) Controls on other releases to intelligence-related information, including releases to the press.
- (4) Computer programs and utilization.
- g. Research and Development. (Major programs under way with a view to achieving new or improved capabilities for the collection, processing, analysis, and exploitation of intelligence data.)
- h. Scientific and technical. (Organization and application of scientific and technological resources for intelligence-related purposes; and arrangements for coordination with other intelligence agencies.)
- i. Counter-measures equipment for overhead reconnaissance systems.
- j. Audio-surveillance counter-measures.
- k. Deficiencies. (Significant gaps and deficiencies in departmental programs and efforts to meet intelligence and covert action needs, and steps being taken to remove such gaps and deficiencies.)

3. Your statements, to be worked into a Directorate draft, should be as brief as possible, yet cover pertinent details of all activities. Where inter-office coordination is required, please obtain this at your draft stage, so submissions to the DD/S&T staff will reflect a Directorate effort. Where you support other Directorates, coordinate with the proper Offices and make note of this in your reply. Your statements are requested by 11 August in order that all submissions may be integrated and staffed in DD/S&T prior to submission. If there are any questions, call [REDACTED] on extension 4020.
