U-2 RECONNAISSANCE MISSION C126C

[Redacted]

25X1

BACKGROUND

Mission C126C was flown [Redacted]

[Redacted] It overflew southwest

China, Laos, and Burma, recovering on 14 May [Redacted]

[Redacted] Total mission time [Redacted]

of

which 1 hour and 52 minutes were over southwest China. This mission was flown in response to USIB and COMOR requirements for weekly coverage of highest priority COMOR targets in South China.

PHOTOGRAPHY

A preliminary study of the mission photography shows that 29 targets were covered by this mission, including 4 airfields, 21 military installations, 1 electronics facility, and 3 urban areas. Twenty of these targets were on the COMOR listing (see table 2).

Analysis of mission photography has revealed a SAM site (see figure 2), located approximately 12 nautical miles southwest of K'un-ming. It does not appear, however, that this site launched a missile against the U-2.

The photography indicates that the missiles fired at the U-2 probably were Guideline-type missiles (see figure 3). Although the missiles cannot be identified positively, analysis suggests that they are either the original Guidelines furnished to the Chinese or native Chinese SAMs closely copied, at least in their external configuration, from the Guideline missile.
