25X1 18. [redacted] Met with Senator Gale McGee (D., Wyo.) concerning his request to the Saigon Station during his visit for information on the rural construction cadre in South Vietnam. Senator McGee advised that he is drafting an address to be presented on the floor of the Senate and needs all the information that can be released and provided at this time. He noted in scanning the paper of February 1966 (which was originally prepared for the Vice President) and which was forwarded for the Senator, that much of the information has become dated, particularly after the CBS television presentation last week. He was most cordial and indicated that he would appreciate as much information as could be provided by the Director for his use. I have a tentative appointment to meet with the Senator tomorrow afternoon to furnish the information. FE Division has been advised of the foregoing.
