26 August 1966

MEMORANDUM FOR THE RECORD

SUBJECT: U-2R Buy

1. [Redacted] called and asked for the price of 8 aircraft with no long lead items being funded at this time. I talked to [Redacted] at Lockheed three times on this, and each time he reiterated that the price outlined in [Redacted] for the 8 purchase was valid, except for deducting the [Redacted] for long lead time items and [Redacted] for the fee. The total target price for these 8 aircraft is [Redacted]. This is most amazing, because the numbers that Lockheed agreed to are the numbers that [Redacted] extrapolated from the quote of 5 to 10 aircraft.

2. [Redacted] explained that he will be on the coast on the 31st when Dr. Flax comes in his office and the hope is that Dr. Flax will approve a piece of paper transferring or approving the funds for the first 8 aircraft. If not, the next available day for Dr. Flax is 6 September.
