2 August 1966

MEMORANDUM FOR: Inspector General

Jack:

At the Morning Meeting of 28 July it was noted that the JIIRG report had been released with the approval of Generals Carroll and [redacted] for comment by the service agencies and by CIA. [redacted] had hoped for comments by 7 August. The Executive Director, however, has directed that we take reasonable time to ensure preparation of thoughtful and constructive comments.

The Executive Director has asked me to serve as the focal point for developing the Agency position and comments.

It would be appreciated if you could let me have your preliminary comments and general impressions, formal or informal, by the close of business on 10 August -- earlier if possible. My plan is to assemble the various Agency commentaries and to arrange an initial meeting with you and other interested Agency officers sometime next week or so to discuss the issues further.

[redacted]
E. H. Knoche

*P.S. Jack -
I know of more with a better feel for some of the issues than you and Ken. Hope you both can find a bit of time for this one. Copies of the JIIRG report and all its annexes are in short supply. I'll be sending along a copy shortly.*
