2. Following the briefing the Panel met and transacted the following business:

a. Minutes of meeting No. 1 should be changed by adding Task Team 6 to paragraph 3 so that it correctly reads: In addition to the scheduled presentation by the COPE Chairman, presentations may also be desired from ISCIG and other activities, particularly Dr. Ruth Davis as Chairman of CODIB Task Team 6.

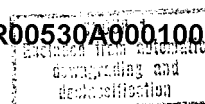

b. The Committee will consider the problems of R&D coordination without regard to the source of funds, i. e., R&D or M&O, for the present.

c. JIIRG will be requested to provide a definition of image interpretation.

d. The Panel will not consider R&D work which may be done in other government agencies such as NASA, etc.

e. The Panel will consider R&D activities pertaining to processing equipment only to the extent that that equipment may be required in interpretation (as opposed to duplication for dissemination) processes. This will pertain to such techniques as image enhancement.
