Re: Contract

STATINTL

Dear Ed:

STATINTL

*yesterday*

In accordance with the approval given by you in telephone conversation ~~today~~, we are prepared to deliver special microwave receivers, presently constructed under subject contract, to another program.  That program will provide CPFF funding for the replacement of such receivers and will provide that such receivers be delivered to subject program. (We will identify subject program by using our project number - 758.) In this manner, the incentives presently operative on subject contract will not be involved since no funding transfers apply and the replacement units will be identical to those borrowed.

Please indicate your concurrence by signing the carbon of this letter and returning same to me.

Very truly yours,

Assistant Secretary

STATINTL

JFK/sc
