DD/S&T 855-66

**MEMORANDUM FOR: Deputy Director for Support**

**SUBJECT : DD/S&T Personnel Requirements for  
Emergency Situations**

1. For planning purposes, we are submitting a list of personnel who we would require to operate this Directorate under unexpected or emergency conditions similar to those we experienced during the blizzard of 7 February 1966. The fifty persons we have listed were selected not only because they occupy key positions but also because their homes are located a mile or less from main thoroughfares and, therefore, could conceivably be picked up at designated or specified points.

2. We are also submitting three suggested routes which might be used by suitable vehicles to pick up all these persons. One route originates from Rosslyn, one in Franconia and the other from the Headquarters Building.

25X1A

3. The Chief, Administrative Staff, O/DD/S&T, Mr. [REDACTED], has been designated as this Directorate's coordinator for these purposes.
