4 January 1966

25X1A

MEMORANDUM FOR: [REDACTED]

SUBJECT: IG Survey of Industrial Security

REFERENCE: Your Memo dated 13 December 1965

1. You asked for my comments on the second part of the IG's recommendation 10: "If the Agency must retain inspection and review responsibility for DOD contracts under the NRP, include in an Agency Regulatory Issuance clearly delineated assignments of functions to the DD/S&T Security Staff and to the Special Security Center for the discharge of that responsibility".

2. I believe it is desirable to have delineations of responsibilities of the Special Security Center and the DD/S&T Security Staff for security surveys and reviews of DOD contracts under the NRP. I understand the Office of Security is planning to prepare a proposed regulation or instruction setting forth the responsibilities of the Special Security Center and others in this respect. I think this is a good step.

25X1A

3. With respect to the costs to CIA involved in inspecting security programs of DOD contractors engaged in the NRP, only [REDACTED] Staff Employees are involved in carrying out these functions.
