#### B. Administration and Problems

Records Management Section - Informal concurrence on the proposed Agency File Manual has now been received from all of the major components of the Agency with the exception of the Office of Communications. Comments are expected from that office shortly.

A training manual is being developed which will cover the proposed Agency filing system, charge-out procedure, use of cross-references, etc. It is anticipated that this manual will be used by the Office of Training in conducting a filing course and that it can be distributed to area Records Officers for their use in training records personnel.

Meetings were held with the Area Records Officers from the DD/A area, the DD/I area, the Office of Communications and the Office of Training to discuss the proposed Agency File Manual and other phases of the program. Meetings were also held with individual Area Records Officers to assist them in their detail problems.

The microfilming of certain vital materials in the Office of Personnel was accomplished in accordance with the established schedule.

Meetings were held with several offices to review the vital materials inventory in an effort to destroy materials which are no longer considered vital, or which have been superseded by more recent deposits. Letters authorizing destruction of these materials when received by this Branch, will be forwarded to the Custodian of the Repository for compliance.

Personnel responsible for handling vital materials in the various offices of the Agency are presently compiling current listings of materials definitely considered vital.

#### C. PROJECT STATUS REPORT

<u>Project 1-53</u> - Records Management Survey of the Office of the Director.

Pending a reply from the Director's office regarding the survey report submitted to that office, analysts have completed the classification and filing of all records in the office of the DD/A, in accordance with the proposed Agency system. Personnel in the office of the DD/A have expressed their complete satisfaction with the reorganized files.

Project 3-53 - Preparation of a comprehensive schedule for the disposition of fiscal records.

A draft of a Records Control Schedule is still under consideration in the Office of the Comptroller.

Project 4-53 - Records Survey of the Office of Operations

The survey of the Index Branch and the office of the Deputy for Collection, 00/C, has been completed. The project is approximately 35% complete.

Project 5-53 - Rewriting of CIA Correspondence Manual

A draft of the Manual has been completed. Additional writing is being delayed pending the completion, by the analyst who is developing the Manual, of the Basic Intelligence Course.
