16 DEC 1966

MEMORANDUM FOR: Deputy Director for Plans

SUBJECT: Inspector General's Survey of the Career Training Program

1. As you know, we are conducting an inspection of the Career Training Program including recruitment, selection, training, placement and career progress. During the survey we have been interviewing Career Trainees in OTR's training cycle. We now plan to interview CT's who are still on the rolls of OTR but who have been attached to various components of the Agency for on-the-job training prior to permanent assignment. Your directorate has 40 of these CT's as indicated on the attached list prepared by OTR.

2. It is requested that you alert your division and staff chiefs that beginning the week of 19 December we wish to contact directly a cross section of these CT's for interviews and that later in our survey we will interview a number of ex-CT's who have had several years of Agency service including overseas experience in the Clandestine Services.
