APPROVAL OF MINUTES:

25X1X7 Action: The minutes of the last meeting, 25 September 1956, were approved as written.

CONTINUATION OF DISCUSSION OF ITEMS ON AGENDA FOR OTTAWA CONFERENCE

A. DUPLICATION, OVERLAP, AND NON-COVERAGE FOUND IN THE ARCTIC ACTIVITIES

25X1X7

1. Discussion: OSI reported that no identifiable areas of duplication or overlap exist except in reporting Soviet expeditionary efforts. OCI stated that, inasmuch as they do not conduct research, they have no knowledge of duplication, overlap, or non-coverage. OHR, Geographic Area, indicated that duplication is no problem in their field because 25X1C8e  does little or no geographic research. OHR, Economic Area, included their comments on duplication in the attached statement which was read to the group.

2. Action: The group agreed that the report of each office be included in a final statement of suggestions for the Ottawa conference.

B. MUTUAL UNDERSTANDING ON CONTEMPLATED FUTURE EFFORTS

1. Discussion: Each office representative reviewed their respective contemplated future efforts as set forth in previous memoranda and in the attached statement prepared by OIB, Economic Area.

2. Action: The group agreed that the report of each office be included in a final statement of suggestions [REDACTED]

25X1X7

C. RELATIVE VALUE OF VARIOUS CATEGORIES OF SOURCE MATERIAL

1. Discussion: The representatives of each office described the degree to which special material was used in research by their respective units.

2. Action: The group agreed that the report of each office be included in a final statement of suggestions [REDACTED]

Minutes of Meeting Held in Room 2318 "M" on 13 September 1956

PRESENT:

DISCUSSION OF THE ORGANIZATION OF WORK ON THE SOVIET ARCTIC AND THE SPECIFIC INTERESTS OF THE VARIOUS ID/I COMPONENTS CONCERNED

1. Discussion: The organization of research and intelligence production on the Soviet Arctic in the DD/Area, as described in the chart distributed prior to the meeting, was discussed. The representatives of the various shops explained their specific interests in the field. The representatives of OCI pointed out that their interests differed from those of the other Offices since their Office is a consumer rather than a producer of intelligence. It needs a mechanism through which it could obtain immediately evaluation of and useful comments on spot reports from all interested CIA components. The only way in which OCI serves as a producer of Arctic intelligence for CIA is in its access to military information. Military Division, OCI, is the only CIA component which holds such information and has channels for obtaining it. OCI can thus fill gaps resulting from CIA's lack of coverage in these fields.

In view of the fact that the term "Soviet Arctic" is defined differently by the various shops concerned, it was suggested that the Arctic Group should begin its activities with the drafting of a definition which could be applied throughout the ID/I Area.

2. Action: D/GG/S (ORR) was requested and agreed to submit, prior to the next meeting, a definition of the term "Soviet Arctic" which all components of the ID/I Area could use.

DISCUSSION OF THE QUESTION HOW THE DD/I AREA CAN BEST MARSHAL ITS RESOURCES TO OBTAIN BALANCED INTELLIGENCE ON THE SOVIET ARCTIC AND TO CORRECT DEFICIENCIES

1. Discussion: The meeting entered into a discussion of the following specific questions: Exchange of information; lateral notification of the status of work in progress, feasibility of cooperative effort on certain problems; methods for recognizing deficiencies that can be corrected by work in the DD/I Area; and the type of mechanism by which these questions could be most appropriately answered.

2. Action: It was agreed (1) that the Group should examine the present and contemplated programs of intelligence research and production in the DD/I components, discover and remove gaps in operation and planning, and act as a central agency facilitating the work of the various shops, (2) that, to facilitate the performance of these tasks, one person designated by the Group should be available as a "clearing house" for exchange of information and handling of requests by interested persons, and (3) that the Group should work out methods to correct deficiencies discovered in its survey of the state of Soviet Arctic intelligence, research, and planning. There was general agreement that the discussion of further details should be postponed and the proposed agenda for the meeting [redacted] on 4 and 5 October be

25X1A9a taken up first.

25X1C8e

25X1A9a. Discussion: [redacted] read the proposed agenda to the participants. The ensuing discussion was focused on the question of intelligence objectives in the Soviet Arctic and definition of the area.

2. Action: To give the Group members more time to think about the suggested items on the agenda, it was agreed to continue the discussion at the next meeting.

NEXT MEETING

Action: It was agreed to hold the next meeting on 19 September 1956 in Room 2318 "M" at 1000 hours.

APPROVAL OF MINUTES:

1. Action: The minutes of the last meeting, 13 September 1956, were approved as written.

DEFINITION OF THE TERM "SOVIET ARCTIC"

25X1A9a 1. Discussion: [REDACTED] read the following suggested geographic definition of the term Soviet Arctic:

"On the basis of DDI intelligence interests, the general area of the Soviet Arctic includes all territory lying north of 60°N. latitude. This region not only comprises a sizeable area of Siberia and north European USSR, but includes all islands and seas of the Arctic Basin between 32°4'35" E. longitude and 168°49'30"W. longitude. Although this vast territory includes some areas where natural conditions are not strictly Arctic, it best represents the region in which activities of an Arctic nature are largely concentrated. Where expedient, micro-geographic areas not a part of the major territory, or transitional areas adjacent to the territory may be included to form a functional unit."

2. Action: It was agreed that the definition be used as a guide in the work of the DDI area [REDACTED]

A. INTELLIGENCE OBJECTIVES

25X1A9a

1. Discussion: [redacted] proposed the following definition of our intelligence objectives in research on the Soviet Arctic:

"To determine Soviet capabilities, intentions, and activities in the Arctic regions as related to scientific study, economic development, and military operations."

This suggestion was discussed.

2. Action: It was agreed that the DDI group should use this definition as a guide [redacted] 25X1X7□

B. DUPLICATION, OVERLAP, AND NON-COVERAGE FOUND IN THE ARCTIC ACTIVITIES OF CIA [redacted] 25X1C8e

1. Discussion: Experience regarding these problems was discussed.

2. Action: It was agreed that each office represented would prepare a statement on this topic that could be used in preparing the discussion [redacted] 25X1X7□

C. MUTUAL UNDERSTANDING ON CONTEMPLATED FUTURE EFFORTS

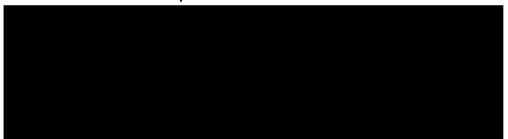

1. Discussion: The group discussed contemplated future efforts of each office in intelligence on the Soviet Arctic.

2. Action: It was agreed that each office will prepare a list of contemplated future projects for discussion at the next meeting.

REPORT ON SUGGESTIONS

25X1X7

1. Discussion: The report on suggestions [redacted] was discussed. The representative of OCI requested a change in the statement of OCI intelligence objectives.

2. Action: The report was approved as amended, and copies distributed.

PROBLEMS OF THE DDI AREA

1. Discussion: The Group resumed the discussion of internal DDI problems. It was noted that a definition of the term "Soviet Arctic" had been adopted on 18 September, and that general agreement had been reached on the need for exchange of information, for lateral notification of the status of work in progress, for cooperative effort on certain problems, for methods for recognizing deficiencies in the intelligence effort in the DD/I area, and for a mechanism by which these problems could most appropriately be solved. It was pointed out that a system of central filing had been approved, although no details had been discussed, and that a general survey of existing and contemplated intelligence

SUGGESTIONS REGARDING THE SOLUTION OF PROBLEMS OF THE DD/I AREA

1. Discussion: The chairman read the agreements, arrived at in the meeting on 13 September, regarding the question how the DD/I Area can best marshal its resources to obtain balanced intelligence on the Soviet Arctic and to correct deficiencies (AC-M-1). He suggested, with reference to the agreement reached in the last meeting (AC-M-4) that the Group make and discuss recommendations for implementation of the agreements of 13 September. [REDACTED] 25X1A9a

25X1A9a

[REDACTED] D/CG/S, ORR) suggested rather to resume the discussion of the over-all objective of the DD/I Area in Soviet Arctic intelligence, the objectives, organization, and working methods of DD/I components engaged in Soviet Arctic Intelligence, and some related matters.

25X1A9a

2. Action: The matters suggested by [REDACTED] were discussed.

ORGANIZATION OF SOVIET ARCTIC INTELLIGENCE IN THE DD/I AREA AND PERTINENT INTERESTS AND ACTIVITIES OF OCI, ORR, OSI AND THEIR COMPONENTS

25X1A9a

1. Discussion: [REDACTED] (IPSt, OSI) recapitulated the intelligence objectives of the DD/I Area and of OSI and described the working methods of various OSI components as well as their significance in intelligence research on the Soviet Arctic. [REDACTED] (S/OM, ORR)

CONTINUATION OF THE DISCUSSION OF ORGANIZATION OF SOVIET ARCTIC INTELLIGENCE IN THE DD/I AREA AND PERTINENT INTERESTS AND ACTIVITIES OF OCI, OHR, OSI, AND THEIR COMPONENTS

25X1A9a Discussion: [REDACTED] explained in detail the organization and operation of the Geographic Research Area and the products for which the area is responsible, and answered questions regarding this subject.

REPORT ON THE ARCTIC COMMITTEE AT ANOTHER INTELLIGENCE AGENCY

25X1A9a Discussion: [REDACTED] reported on his visit with the chairman of the Arctic committee at another Intelligence Agency, the reasons for its formation, the tasks which it has assumed, its long-run operational program, and its achievements thus far.

REPORT ON COMMUNICATIONS RECEIVED AFTER THE LAST MEETING AND ON THE STATE OF THE GROUP'S COMPLIANCE WITH ITS ASSIGNMENT

25X1A9a 1. Discussion: [REDACTED] reviewed the activities of the Group since its establishment and gave an account of his discussions, after the last meeting, with representatives of the various DD/I components forming the Group. He reported, in particular, on the response of the various components to the suggestion of OSI to draft a list of major DD/I Arctic Intelligence problems, broken down according to priorities. He suggested the formation of two teams, one to work out an operational plan for a "clearing house for Soviet Arctic intelligence" on the basis of recommendations made by OSI, OCI, and

ERA representatives, the other to draft a DD/I list of priority Arctic objectives as suggested by OSI and seconded by GRA representatives. The matter was discussed and suggestions were made regarding the composition of the two teams.

2. Action: It was unanimously agreed to form the following teams:

- (a) Clearing operation. [REDACTED] 25X1A9a
25X1A9a [REDACTED] (ERA), and one member to be named by
OCI. 25X1A9a
- (b) DD/I list of priority objectives. [REDACTED]

PROGRESS REPORT ON ALL-PURPOSE RESEARCH MAP OF THE SOVIET ARCTIC

- 25X1A9a
- Discussion: [redacted] (ORR) exhibited two NIS maps which will be the basis of the planned research map. He reported on his consultations with the DD/I components represented in the Group regarding their specific needs. OCI and OSI desire a map with little detail on it, while ORR would like to have more detail.
 - Action: The discussion resulted in general agreement that two base maps of the Soviet Arctic Area, as previously defined by the Group, are needed. (a) A briefing map, including only a minimum of detail, to be printed in two forms: a two sheet edition scaled to 5 million and a one sheet edition scaled to 8 million. (b) Another edition of the same map in which the political sub-division boundaries, railroad lines, administrative centers of the political sub-divisions and other selected towns and locations are added. It was further agreed that sample copies of the maps will be sent to all units represented in the Group for comments.

RECOMMENDATIONS TO THE AD HOC GROUP ON SOVIET ARCTIC INTELLIGENCE

It is recommended:

1. That a single permanent DD/I Group on Soviet Arctic Intelligence be formed within the DD/I area, to consist of one principle representative each from OSI, OCI, ERA/RR and GRA/RR.
2. That one of the members of this Group shall act as its chairman. The chairmanship shall be rotated between ORR and OSI representatives periodically by mutual agreement.
3. That a list shall be prepared and thereafter be maintained on all projects completed or in process in the DD/I area, which deal exclusively or to a substantial extent with the Soviet Arctic, and that this list shall contain the following: (a) Project Designation (Number), (b) Classification, (c) Title, (d) Brief Description of Contents as far as the Soviet Arctic is concerned, (e) Acting Unit, (f) Author(s), (g) Due Date or Target Date, (h) Date of Submission, (i) Date of Publication or other end use, (j) Form of Publication or Place of Availability. Each of the members of the Group shall initially prepare a list of the projects completed or in process at his Office, or Area, with the above breakdowns, and send the master copy of its list to the chairman of the Group and a carbon copy to each other member. In order to keep these lists up to date at all times, each member shall notify immediately all other members and the Group Chairman of any new project or any change in the status of any project. The master list maintained by the chairman will be considered the official list of DD/I projects on the Soviet Arctic and will be available at all times to anyone inside or outside of the DD/I area.
4. In addition to the above the Group shall have the following functions:
 - a. An Office receiving a request for a research project or study which is primarily concerned with the Soviet Arctic and requires contributions from more than one DD/I Office, will normally notify the Chairman of the Group on Soviet Arctic Intelligence who, thereupon, shall have the duty to call a meeting of the Group and/or, upon request by the receiver of the assignment or upon his own motion, to take, in cooperation with the Offices or sub-units concerned, other steps required to facilitate and expedite compliance with the request.
 - b. The Office receiving the request shall be responsible for integrating contributions into a single DD/I product and for coordination within the DD/I area. Any other necessary coordination shall be accomplished by the appropriate contributing offices.
 - c. The Group will handle such other assignments on the Soviet Arctic as may be required.
