1. [] Miss Judy Hutchinson, in the office of Senator Harrison Williams (D., N.J.), called to request an interview appointment for [] who has a B.A. in history, for this afternoon. An appointment was made with [] Personnel, for 2:00 p.m. and the Senator's office was so advised. 25X1

25X1

2. [] Accompanied Messrs. Duckett and Bruce Clarke to a briefing of Senator Stuart Symington, in response to the Senator's request, regarding the Soviet ABM system. On the Senator's initiative, the discussion was broadened to include other Soviet offensive and defensive strategic programs. (Memo for the Record available in OLC.)

25X1

3. [] Called on Senator Claiborne Pell to renew old acquaintances and offer him a briefing preparatory to his upcoming trip to Czechoslovakia. It turned out the Senator is leaving this evening, so I briefly summarized the current Agency view regarding the Czechoslovakian economic situation, relations with Moscow and other Communist countries, etc. Senator Pell, who had served in Czechoslovakia as a young Foreign Service officer some years ago, explained that a main purpose of his trip was to explore the possibility of closer Czech economic ties with the West. We also discussed the current political situation in Greece.

25X1

4. [] Talked briefly with Bill Darden, Senate Armed Services Committee staff, regarding the Director's appearance before Senator Russell's Subcommittee on 1 July. Darden could provide no specific guidance other than to say that we should expect a variety of questions on strategic weapon systems, etc., especially from Senator Symington.

6. [redacted] Philip Kelleher, House Armed Services Committee staff, called to say that a young lady acquaintance of his son's had been approached by a mysterious "Foreign Research Bureau" of P. O. Box 536, Miami International Airport, with an offer of a free trip to Rome regarding possible employment. Kelleher thought the proposition sounded suspicious and asked if the Foreign Research Bureau might be a cover organization for the Agency or some other member of the intelligence community. I said we never heard of such a bureau, but we would check and let him know whatever we could find out.

8. [redacted] Advised Bill Woodruff, Senate Appropriations Committee staff, that Ed Allen would be available to talk with Senator Karl Mundt on the subject of free world trade with North Vietnam on Friday afternoon or at some subsequent time convenient to the Senator. I pointed out it would appear desirable for us to cover this with Senator Mundt in advance of the Director's briefing of the Subcommittees on Monday if this could be arranged. 3. [redacted] and I met with Bill Darden, Senate Armed Services Committee staff, to tell him that the Director was seeking a personal appointment with Senator Russell in the next few days and to remind Darden of our continued strong desire for an early meeting of the CIA Subcommittee of Senate Armed Services.

25X1

4. [redacted] and I talked with Senator Henry M. Jackson regarding the importance of an early CIA Subcommittee meeting. Senator Jackson completely agreed on the desirability of an early meeting and said he would again raise the matter with Senator Russell. He confided that Senator Russell's health was not good and the Senator yesterday had some trouble finishing a speech on the floor. He added that "things are getting more and more difficult." However, Senator Jackson pointed out that now that Senator Fulbright is out of town for an extended period, Senator Russell might be more willing to convene a Subcommittee meeting. Jackson speculated that one reason for Russell's reluctance heretofore was his desire not to expose Fulbright to a substantive Agency briefing.

14. [redacted] Met with Bun Bray, Associate Staff Director, House Post Office and Civil Service Committee, and received from him the transcript of the Director's appearance before the Subcommittee on Manpower and Civil Service of 25 June. The six copies of the transcript, together with the ditto master, steno notes, and waste material, were turned over to the Agency. If copies of the transcript are needed for later review by the Committee staff or members of the Committee, they will be "borrowed back" for such period and returned to the Agency for safekeeping.

Mr. Bray requested I keep in touch with the Committee staff on a daily basis for a week or so to provide informal assistance or advice on questions of concern to Chairman Henderson. Bray noted that Senator Ervin, in previous material put into the Senate record, had indicated that lines of questioning used in polygraph interrogation were completely offensive as well as an invasion of the individual rights of the employee. The sense of the Director's testimony, however, is to the effect that the standard question format is utilized in polygraph examination. Bray indicated he would like to discuss informally the questionnaire form used in polygraph examinations. I advised I would relay the request and be back in touch with him tomorrow.

Mr. Maury and [redacted] talked briefly with Woodruff about the current debate on the Sentinel program and the bearing which the Soviet ABM system and the Chinese Communist ICBM situation have on this. During this conversation Woodruff indicated that he and some members of the Subcommittee had great difficulty in accepting the judgment that the Tallinn system was not an ABM system based on the fact that the only US air threat was low-level in character. I advised Woodruff that I would discuss this with the appropriate people in the Agency and be back in touch with him.

This was done in response to a written request from Senator Sparkman to FBIS. Locklin was not aware that the Senator had made this request and expressed considerable interest in our discussion of these publications and the FBIS functions. He was advised that the FBIS white book could be made available on the same basis in lieu of the six area books, if this would better serve the Senator's requirements. ADDENDUM TO JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Friday - 21 June 1968

[redacted] [redacted] and I made a courtesy call on Senator John O. Pastore whom I had not previously met. I told the Senator we had been in close touch with George Murphy, of the Joint Committee on Atomic Energy staff, from whom we understood the Joint Committee would wish a briefing from the Director before adjournment. I said we would appreciate any guidance the Senator could offer to ensure that such a briefing would be of maximum value to the Joint Committee. Senator Pastore indicated he had nothing specific to suggest at this time.

1. [redacted] Bun Bray, House Post Office and Civil Service Committee staff, called to confirm that we are scheduled to appear before the Henderson Subcommittee on S. 1035 at 11:00 Tuesday, 25 June. Bray said we would have only an hour and the testimony should be "succinct". Among the questions for which he thought we should be prepared were the following: (a) psychological testing, polygraph, financial disclosures; (b) security problems created for us if we were bound by the court procedures provided for in S. 1035; (c) whether or not we would wish a complete exemption from the provisions of H. R. 17760, (the Henderson bill); (d) the rate of our employee turnover, how it compares with other Government agencies, and what it shows about the attitude of our employees toward our security and personnel procedures; (e) sanitized examples of security cases where the provisions of S. 1035 would have seriously hampered us in taking corrective action.

2. [redacted] Talked with Representative Gilbert Gude who said the number of high school students involved in his Governmental orientation program is about 40, all honor students. Gude said that they would particularly enjoy a visit to Headquarters and he hoped bus transportation could be arranged. Someone from his office will call us to work out the details.

5. [] During the morning met briefly with Mr. J. R. Blandford, Counsel, House Armed Services Committee, who advised that he had talked to Mr. Charles Johnson, Staff Director, House Post Office and Civil Service Committee, earlier in the morning and had a good discussion of S. 1035 and H. R. 17760. Mr. Blandford was thanked for his assistance.

During the afternoon I met with Mr. Blandford and gave him the highlights of the current community thinking on the Chinese missile program. Mr. Blandford noted in part that from the House Armed Services Committee's point of view, this topic is one that is highly conditioned by current political considerations and recommended that it be held for reporting to the Chairman and the Committee at such time as we meet with the CIA Subcommittee.

25X1

6. [] Received a call from Miss Gwen Harrison, in the office of Representative William Mailliard, concerning correspondence that has been received from a constituent raising various charges against the Agency. In response to her request, I advised her I would be in the building tomorrow and would come by and talk to her about it.

25X1

7. [] Mr. Maury and [] met with Representative Philip Philbin and discussed H. R. 13705, the cost-of-living amendment to the Agency retirement bill. Mr. Philbin noted that the procurement hearings were demanding the attention of the full Committee, and together with other business, demanded the attention of the Committee members. He is not able to schedule a meeting of the Subcommittee until the procurement hearings are completed. He is hopeful that the Committee may complete them and that he will be able to meet with us the end of next week or the beginning of the week of 1 July. He expressed his appreciation of the need for passage of this Agency bill and advised that he did not feel that there would be any problem in handling it in the floor of the House.

25X1

8. [] Mr. Maury and [] met with Mr. Philip Kelleher, House Armed Services Committee staff, and reviewed with him the meeting with Representative Philbin. Mr. Kelleher observed that Mr. Philbin may be a little bit optimistic about the completion of the procurement hearings which may well consume the Committee's time through the beginning of the week of 1 July. He did note, however, that should opportunity arise during the week, attempt may be made to present the bill to the full Committee for approval without the formality of hearings by the Subcommittee.

[redacted] Senator Griffin indicated at the outset that he had no preconceived position on the Sentinel issue. His only concern was to "vote right". For this reason he was anxious to get as many of the facts as possible. Mr. Clarke gave a detailed briefing on the Soviet system and touched on Communist China's in response to a question from Senator Griffin. The Senator expressed his appreciation for the briefing and said he was still somewhat undecided as to how he would vote on the issue, but said he leaned on the side of caution on matters of this sort where national security is involved.

Woodruff said he has been pressing Senator Russell as hard as he possibly could to schedule a CIA briefing [redacted] I told Woodruff that I had suggested to Darden we give both of them a detailed briefing on the Chinese and Soviet missile situations as soon as possible. Woodruff said he would like very much to do this jointly with Darden and would let me know what time would be convenient for them.

1. [] At his request I met with William Darden, Senate Armed Services Committee staff, and briefed him on the community position with respect to the status of Communist China's ICBM and atomic energy programs. Darden was interested in getting this information in connection with the current description of the U. S. Sentinel program.

I advised Darden that we were preparing a response to Senator Thurmond's letter to us on the allegations contained in the May issue of The Washington Observer Newsletter. I told him we were also preparing material for his use with Senator Russell on this. Darden had no particular thoughts as to the advantages of an oral as opposed to a written response to Senator Thurmond.

2. [] In response to his question to Mr. Maury on Friday, I advised George Murphy, on the staff of the Joint Committee on Atomic Energy, that we had no new leads of cases involving possible penetration of NATO security. I briefed Mr. Kelleher lightly on the impending military command staff exercise in Czechoslovakia and Poland and the Venezuelan seizure of the Soviet tug Gromovoy. Mr. Kelleher in turn provided a copy of a magazine summary of various news items resulting from the President's considerations relating to his decision to seek peace in Vietnam. 1. [redacted] On 14 June, Boyd Crawford, House Foreign Affairs Committee staff, called Mr. Warner to report that Representative John Tunney (D., Calif.) had returned from a trip to Vietnam with questions about the "hamlet evaluation system." According to Crawford, Tunney feels that the basic data being fed into this system is inaccurate, and has raised the matter with the General Accounting Office. GAO has responded that they do not normally investigate such matters, but suggested that they might do so if Chairman Morgan made a formal request to the Comptroller General. Crawford wanted to know our reaction. Accordingly I raised the matter with George Carver, SAVA, who expressed the hope that such a move could be discouraged. Mr. Warner informed Crawford that, speaking unofficially, we did not favor this proposal.

5. [] Met with Mr. J. R. Blandford, Counsel, House Armed Services Committee. Mr. Blandford advised that he had discussed the Henderson letter with the Chairman, but that the Chairman was unable to see it or sign it before leaving for California. It will be forwarded, however, after the Chairman's return to the office tomorrow morning.

Reviewed the conversation of last week with Mr. Philbin's office concerning the scheduling of hearings on H. R. 13705. Mr. Blandford, however, does not see any break in the schedule pending the completion of hearings on the military procurement bill.

I briefed Mr. Blandford on certain military exercises within the Soviet Union, the Soviet missile force and certain Chinese marine activities. Mr. Blandford advised that these are matters of interest to the Committee and noted that the Chairman will be having a meeting of the Armed Services Policy Subcommittee tomorrow afternoon. Following that meeting the Chairman may well be interested in setting a time for a meeting of the CIA Subcommittee with the Director.

6. [] Met with Miss Oneta Stockstill, Executive Secretary, House Armed Services Committee, and reviewed with her the letter of 22 May from Representative William M. The letter indicated that the last scheduled meeting of the Rules Committee will be on 9 July. Miss Stockstill noted that similar letters have been received from the Rules Committee for several years, but that legislation pending before House Armed Services, as well as numerous appropriation bills that have not been acted upon, would indicate that the 9 July date cannot be adhered to by the Rules Committee.

7. Met with Mr. Robert Michaels, House Appropriations Committee staff. Mr. Michaels advised that he had been able to spend quite a bit of time with the Chairman on Friday and had brought him up to date on the various items of intelligence information that had been provided for the Chairman. Mr. Michaels indicated that the Chairman was interested in a meeting of the CIA Subcommittee with the Director, but that this week's schedule did not allow consideration of a time for such a meeting.

On the subject of budget cuts, Mr. Michaels noted the tremendous amount of duplication in military recruiting and civilian agency recruiting and the amount of money that is tied into the overall recruiting effort. We discussed in some detail changes that have been required in Agency recruiting procedures on college campuses, to the end that Agency procedures have been amended by the Director to avoid unnecessary confrontation with pickets and other dissidents, while still meeting our commitments to the universities and interested applicants. Although Mr. Michaels was somewhat critical of the activities of the various military departments during a period when selective service is in effect, he did not appear at all critical of this Agency's recruiting effort or the need thereof.

I briefed Mr. Michaels on a recent study concerning Chinese marine activities, certain military exercises within the Soviet Union and the Soviet missile force. Mr. Michaels will relay these to Chairman Mahon at the earliest opportunity.

4. [redacted] Received a call from [redacted] [redacted] NSA, who advised that the DOD witnesses will probably be Frank Bartimo and Carl Clewlow, and that he feels this choice of witnesses is helpful for NSA. Also discussed with him at some length H. R. 17760, the Henderson bill, and implementation of the present order on pay raise by agencies having administrative authority to establish salary level.

5. [REDACTED]

OSR, accompanied by [REDACTED] met with Mr. J. R. Blandford, Counsel, House Armed Services Committee, in response to his earlier request for briefing on Soviet STOL aircraft, Soviet aircraft carriers, and the interceptor, Foxbat. (See OSR Memorandum for the Record.) Mr. Blandford was quite candid in relating Committee considerations regarding each of the briefing items that should be touched upon for the benefit of the Committee members at the next meeting with the CIA Subcommittee.

On completion of the briefing I made mention of the operational use of the Soviet TU 114 transport to extend their air defense capabilities and Chinese Communist negotiations with other nations for assistance in the Chinese atomic energy program. Mr. Blandford advised that he had been briefed in detail on the Soviet air defense matter and noted certain aspects of the program which he feels are somewhat in advance of our own.

Had a long discussion later in the day with Mr. Blandford with regard to the Committee schedule and other considerations that have delayed hearings by the Philbin Subcommittee on H. R. 13705, the bill to amend the CIA Retirement Act. I advised him that I had talked to Mr. Clifford Gaucher, Administrative Assistant to Representative Philbin and that Mr. Gaucher had intended to raise the question of hearings during the coming week when he talks to Mr. Philbin by telephone during the day. Mr. Blandford advised that there was only a slight possibility that Chairman Rivers will be away from the city Thursday and Friday of the coming week which would cause possible cancellation of full Committee meetings for these two days. Otherwise Subcommittee meetings would normally be pre-empted by the scheduled meetings of the full Committee on the 18th, 19th, 20th, and 21st and of the full week of the 24th. In summary, it is his opinion that both Mr. Rivers and Mr. Philbin are in sympathy with the need for hearing on the bill, but that other Committee considerations have militated against scheduling of the hearing. It was noted in passing that in instances where the Executive had been truly interested in pushing such legislation, that time had been found by the Committee for such Subcommittee meetings, even in the face of impossible schedules of the full Committee.

6. [redacted] Met with Miss Elsie Thornton, House Post Office and Civil Service Committee staff, and received from her the transcript of the hearings of 13 June on S. 1035 and H. R. 17760. In the absence of Mr. Johnson, also reviewed with Miss Thornton, the Committee hearing schedule for the coming week. Miss Thornton advised that hearing time for Tuesday, 18 June, will be filled with DOD witnesses appearing in open session at 10:00 a.m. and witnesses from NSA in executive session at 11:00 a.m. Future action on legislation and full Committee meetings will occupy the Henderson Subcommittee during the remainder of the week. Scheduling of a date for Agency appearance will be determined by Chairman Henderson and the Subcommittee during the coming week. Late in the day I checked with Mr. Bray's office and verified that further scheduling of witnesses before the Subcommittee will not be accomplished until next week.

8. [redacted] Met with Mr. Philip Kelleher, Counsel, House Armed Services Committee, who advised that he had completed a draft of the Chairman's letter to Representative Henderson and expected that it would be finalized in the morning. Since it will be going back to Mr. Blandford, he does not believe that it would be in the Chairman's hands on Saturday, however.

I filled Mr. Kelleher in on the conversation with Mr. Gaucher and Mr. Blandford concerning hearings on H. R. 13705. Mr. Kelleher also indicated that the full Committee schedule is such that unless some change is effected, he does not see a time for hearing during the next two weeks.

The transcript containing remarks on testing of Soviet helicopters has not returned to his office. As noted earlier, he will call me to review it when it is returned.

9. [] Met with Mr. Robert Michaels, House Appropriations Committee staff, and briefed him on a development in the Chinese atomic energy program, Soviet extension of their air defense capability, Soviet weapons effects tests and support of Soviet naval vessels in the Mediterranean. Mr. Michaels noted that these items, as well as ones previously furnished the Chairman during the last ten days, are matters of interest to the Chairman and members. He has briefed Mr. Lipscomb fully on each of the items but has been unable to meet with the Chairman on each of them.

Mr. Michaels advised that the Appropriations Committee is getting close to markup of the Agency's defense bill and that the Chairman may well desire an intelligence type briefing to include matters such as the items we have been providing prior to markup. Although the Chairman's schedule is fairly full, Mr. Michaels believes that time could be found during the coming week, possibly late Tuesday morning or Thursday or Friday, for a meeting.

25X1

10. [] After checking with the Office of Personnel, discussed briefly Agency requirements for the CT program with Mr. Gilbert LeKander, Administrative Assistant to Representative Frank Bow. A young constituent of Mr. Bow's had reported to Mr. LeKander that the Agency requires a minimum of two degrees for inclusion in the CT program. I advised that we point out to prospective candidates that a degree and good academic standing is required and that they are processed in competition with other candidates. I noted, however, that only in the analytical fields were graduate degrees involved to any great extent as far as basic qualifications are concerned. Mr. LeKander thanked me for the clarification and indicated that the particular individual will probably be going into the military very shortly. No further action is desired by Mr. Bow on the matter.

11. [] Picked up from Forrest Rettgers, Administrative Assistant to Senator Harry Byrd (D., Va.), a letter from a constituent claiming her husband, [] had worked for the Agency and then been thrown out with no assistance. 13. [Redacted] At the request of the Director's office, called the office of Representative Gilbert Gude and, in his absence, talked with Mr. Mark Mathis regarding the possibility of briefing some high school "interns" from Mr. Gude's district. Mr. Mathis explained that the Congressman had arranged for 21 high school seniors to get briefings on various Government agencies between 24 June and 12 July, mainly to acquaint them with how the Government works, but also for the benefit of those among them who might be interested in Government employment. The briefings will be held on the Hill, and the schedule is flexible. I told Mr. Mathis that on the basis of this information, I would call him back and give him an answer shortly.

[REDACTED] called on behalf of the Senator to inquire whether the Agency could furnish overt material for a speech on the kind and quantity of military aid from Czechoslovakia to North Vietnam. After checking with [REDACTED] office I informed [REDACTED] that we have no material suitable for this purpose.

25X1

25X1

2. [REDACTED]

Attended a hearing of the House Subcommittee on Manpower and Civil Service at which Mr. Macy was the witness on S. 1035. See memorandum for the record.

25X1

3. [REDACTED]

Talked to Frank McNamara, Director, House Committee on Un-American Activities, who had two names on which he wishes a check.

In a subsequent conversation, I noted I had attended the hearing on S. 1035 and the fact that we had previously discussed this bill. McNamara was very much interested and I provided him with our principle objections to the bill. He said he would get a copy of the bill and call it to the attention of the members of his Committee with the thought that they can organize opposition to the bill among their close associates in the House.

25X1

4. [REDACTED]

Maria Cruickshank, in the office of Senator Harry F. Byrd (D., Va.), called to inform me they have a letter from a constituent which Mr. Forrest Rettgers, in their office, would like to discuss with one of us. I made an appointment to see Mr. Rettgers at 11:15 a.m. tomorrow.

25X1

5. [REDACTED]

Met with Mr. James Wilson, House Science and Astronautics Committee staff, and briefed him on the current intelligence item relating to the Soviet space program and possible new Soviet intermediate and medium range missiles. Mr. Wilson was most appreciative and indicated that he would brief Chairman Teague on the new activity in the Soviet space program as soon as he could get with him.

25X1 6. [redacted] met with Miss Barbara Wells, House Post Office and Civil Service Committee staff, and arranged through her for the purchase of a copy of the transcripts of the Committee hearings on S. 1035. Delivery of the copy of the transcripts will be made to the Committee office where it can be picked up on the morning following each day of testimony. Billing will be made on Government voucher addressed to the Central Intelligence Agency for the attention of [redacted] Miss Wells' point of contact in the Ace Reporting Company was a Mrs. Felton.

25X1

25X1 7. [redacted] After the Post Office and Civil Service Committee hearings on S. 1035 started, I met with Mr. Charles Johnson, Staff Director, who is not personally engaging in the conduct of the hearing. Mr. Johnson advised that in his opinion, the meeting the other afternoon between the Chairman and Messrs. Maury and Warner was very beneficial. He also noted that he was personally relieved, in meeting with the Chairman later, to find that the information provided them by the Chairman had been the highlights of the hearing procedure the Chairman intended to follow and not the substance of the Chairman's attitude toward the bill and the Agency needs. Mr. Johnson indicated further that he thinks matters are now on the right track.

25X1 8. [redacted] Met with Mr. J. R. Blandford, House Armed Services Committee staff, and advised him that we had received an unconfirmed report from the Far East concerning the captain of the USS Pueblo. Mr. Blandford was most appreciative and asked that he be kept advised for the Chairman. With regard to the Henderson letter, it is Mr. Blandford's feeling that the Chairman will sign and send the revised version which will have to await redrafting by Mr. Kelleher, who will be pretty much tied up during the day with hearings and meetings with the Chairman. Mr. Blandford set 9:00 a.m. Friday for the requested briefing by Agency representatives on Soviet STOL aircraft, Soviet aircraft operations, and the Foxbat aircraft.

9. [] Met with Mr. Robert Michaels, House Appropriations Committee staff, and advised him that an unconfirmed newspaper report has been received from the Far East concerning the captain of the USS Pueblo. Mr. Michaels was appreciative and requested that he be kept advised.

With regard to yesterday's briefing of Representative Lipscomb by Messrs. Duckett and Allen, Mr. Michaels noted that he had failed to raise the question whether the contract cited with [] contains a hardware exclusion clause. Separately Mr. Michaels also inquired concerning photo interpretation, whether NPIC for example, has access to and makes use of weather satellite photography, or other such photography, in the analysis of matters of interest to the intelligence community. He also requested information on the degree of resolution, both claimed and achieved, by the various aircraft and other photographic systems being utilized at the present. He would also appreciate information concerning []

25X1

25X1

[] The foregoing questions have been relayed to DD/S&T.

25X1

Mr. Michaels observed that in case our people had not noted it, Aero Space Daily, among others, commented on the Defense need to identify programs for heavy appropriation cuts. Most frequently mentioned, according to Mr. Michaels, were the ABM and MOL projects.

I also briefed Mr. Michaels on new activity in the Soviet space program and possible Soviet intermediate and medium range missiles.

I brought Mr. Michaels up to date on the status of S. 1035 hearings and Agency considerations relating thereto since Mr. Warner had talked to him after the meeting with Chairman Henderson. Mr. Michaels advised he has had no further conversation with Chairman Mahon on the subject.

25X1

10. [] Met with Mr. Philip Kelleher, House Armed Services Committee, who advised that he had not been able to do anything yet with the Henderson letter, but that he would do his best to have it ready for the Chairman tomorrow morning. I also briefed Mr. Kelleher on the unconfirmed report relating to the captain of the USS Pueblo.

11. [redacted] Hand carried to William Woodruff, Senate Appropriations Committee staff, an updated paper on communist aid to North Vietnam, prepared for Senator Mundt by OER. Woodruff said he thought this was just what was needed. Woodruff said that Senator Mundt has asked him to obtain from the Agency information on free world shipping to North Vietnam. We discussed this a bit and I pointed out that we were providing this type of information for Representative Glenard Lipscomb. Woodruff said that Mundt and Lipscomb get together frequently and compare notes, so we should make certain that we give the same information to Senator Mundt that we give to Representative Lipscomb.

I advised Woodruff of the unconfirmed report we had received concerning the captain of the Pueblo. Woodruff thanked me for the information but said under the circumstances he thought he would not relay the report unless we had information confirming it. I also briefed Woodruff on several intelligence items, including Soviet preparations for a major underground nuclear test, the status of the Soviet's new space launch complex and the item about the use of Egyptian ports by Soviet vessels. I took this opportunity to give Woodruff details on one aspect relating to the termination of a sensitive Agency project.

25X1

12. [redacted] Met with William Darden, Senate Armed Services Committee staff, and passed to him the information received from a newspaper source concerning the captain of the Pueblo. I emphasized this information was unverified by Agency sources. I also briefed Darden on several current intelligence items, including Soviet preparations for a major underground nuclear test, the status of the Soviet's new space launch complex and the item about the use of Egyptian ports by Soviet vessels. I took this opportunity to give Darden details on one aspect relating to the termination of a sensitive Agency project.

Mr. Darden showed me a letter Senator Russell had received from a Georgia constituent taking him to task regarding the assertions in the Washington Observer newsletter of 15 May 1968 to the effect that the CIA is using unvouchered funds to organize Negro voter registration drives in the south and to finance Negro militants in southern campuses. I told Darden this was a replay of an old Drew Pearson column and Darden recalled that we had been in touch with him before on it. I also told him that we had received similar inquiry from Senator Thurmond and were preparing something on this which we would make available for Darden's use with Senator Russell.

13. [redacted] Met with George Murphy and John Conway, on the staff of the Joint Committee on Atomic Energy, and briefed them on two items of interest to the JCAE. One concerned Soviet preparations for a major underground nuclear test and the other with problems the Chinese Communists are apparently having in obtaining heavy water. In connection with the latter item, Conway said he had been told by members of ACDA and the Council for a Livable World that there has been some slippage in the time table of Chinese Communist atomic energy programs and therefore certain U. S. programs could be curtailed. Conway is interested in our position on this. Conway also said that they would want to have the Director up for the semi-annual briefing of the Committee before Congress recesses. If the Congress adjourns for the conventions and returns, this can be done later. On the other hand, if it recesses sine die before the conventions, this will have to be done in July. I told Conway that we would be alerted to this possibility.

1. [redacted] and I met with Russ Blandford, House Armed Services Committee staff, regarding a possible letter which Chairman Rivers might send to Chairman Henderson, of the Manpower and Civil Service Subcommittee, regarding upcoming hearings on S. 1035, Constitutional Rights of Federal Employees. Blandford suggested a shortened version of our proposed draft letter and asked us to take up the problem with Philip Kelleher, of the Committee staff. Mr. Kelleher will prepare a final, shortened version on the basis of our suggestions and Blandford will see if Chairman Rivers wants to send it.

Blandford asked some questions about the characteristics and performance of the Foxbat Soviet aircraft and also mentioned his continuing interest in the development of Soviet STOL aircraft. We offered to brief him on this matter at his convenience and [redacted] later made arrangements for the briefing on Friday, 14 June. We urged Blandford to push for an early meeting of the full Committee so that these and other matters could be fully reviewed. He said he hoped that now that Rivers' South Carolina primary was out of the way, the Chairman might be persuaded to convene a Subcommittee meeting.

25X1

We briefed Blandford on several current intelligence items including (a) use of Egyptian ports by Soviet vessels in the Mediterranean, (b) new activity in the Soviet space program, (c) new activity in the Soviet nuclear program, (d) possible new Soviet intermediate or medium range missiles.

25X1

2. [redacted] Picked up from Jim Kendall, Staff Director of the Senate Preparedness Subcommittee, their draft report on balance of strategic power. Mr. Kendall asked if we would review the draft for accuracy, at the same time making sure that they have not included in it any information in special security categories. He again asked that this be handled very closely and without comment elsewhere. This is being forwarded to the DD/I for initial review and will subsequently be reviewed by the DD/S&T.

3. [] Mr. Maury and [] met with Representative Bates to bring him up to date on the legislation pending before Chairman Henderson's Manpower Subcommittee of the Post Office and Civil Service Committee. We also briefed him on a number of current intelligence items including Soviet preparations for a major weapons effects test at their underground testing area, development of a new solid propellant missile in the MRBM-IRBM range, the progress being made by the Soviets in the new space launch complex and use of Egyptian ports by Soviet ships in the Mediterranean. (See Memorandum for the Record for details.)

25X1

25X1

4. [] Met with Mr. James Gehrig, Staff Director, Senate Committee on Aeronautical and Space Sciences, and briefed him on the latest information concerning the new Soviet space launch complex. Gehrig was glad to have this information and again expressed concern that this information was not available to all members of the Committee. He asked if Senators Russell and Symington had received this information and focused on it. I told him I was quite certain that it was covered as part of our overall briefings of the CIA Subcommittees. I added that I could not be certain to the extent of which the Senators actually focused on it, however. Gehrig expressed his concern that members of their Committee, like Senators Russell and Symington had voted in favor of cuts in the NASA budget, knowing that the Soviets continue to place heavy emphasis on their space program. Gehrig said he would like to have a briefing for the Chairman and Mrs. Smith, but was not certain when this could be accomplished. In the interim, he might wish to visit the Agency to get a briefing himself. I told him we would be happy to do this whenever he wished.

25X1

5. [] Mr. Maury and [] made a courtesy call on Senator Howard Baker. The Senator was most complimentary of the Agency and was particularly laudatory in his remarks about Mr. Warner. The Senator said that the briefings he received from the Agency were always of the highest caliber and better than any others he received. We thanked the Senator and told him we would be happy to be of assistance at any time in the future.

6. [redacted] At his request, I met briefly with Mr. David Martin, Staff Assistant to Senator Thomas Dodd. Martin mentioned that the Senator was having an old Internal Security Subcommittee report on the Hungarian situation reprinted with the comments applicable to the current situation in Czechoslovakia. Martin also asked if he could be put on the mailing list for the FBIS Far East book for a short period of time. I told Martin I was sure this could be arranged, but pointed out some of the problems involved in making this particular book available. Martin said he understood and would handle the material appropriately.

Had a friendly chat with Senator Dodd who mentioned that just prior to seeing him he had been advised by the FBI of the arrest of an armed man in Hartford who was threatening to shoot the Senator. He said he had asked the Bureau and local police officials to suppress any publicity in connection with this, feeling that it would only make the current situation worse. The Senator was rather philosophical about his own safety, but spoke in very strong terms about the state of affairs in the U. S. generally. He said he introduced in the Senate today, the President's gun bill at the President's request.

25X1

7. [redacted] Met with Mr. B. Benton Bray, Associate Staff Director, House Post Office and Civil Service Committee. Mr. Bray indicated that the Chairman's meeting with Mr. Maury and Mr. Warner had been most satisfactory and a productive one and inquired if we were ready to appear on Tuesday, the 18th. I advised that we will be ready on that date. I expect to talk further with Mr. Bray during tomorrow after the appearance of Mr. Macy and the Civil Service Commissioners.

25X1 9. [] Accompanied Carl Duckett and Edward Allen to a briefing of Representative Lipscomb and Mr. Robert Michaels, House Appropriations Committee staff, as a follow up to the Appropriations hearings of 17 May concerning Agency external research programs. Mr. Lipscomb evidenced a continuing concern about the capability and competence of components within the Department of Commerce and elsewhere, to provide the level or depth of studies he would feel is required for intelligence community consumption.

He evidenced equal concern for the expenditure of Agency funds to reimburse for services and studies prepared by old line departments, particularly when many of the studies are essentially unclassified. During the two hour session Mr. Lipscomb noted at several points his acceptance of the Agency position and problems inherent in seeking expert analysis. Although Mr. Lipscomb did not move from the premise that external research and analysis is a somewhat specific area, he appeared to accept completely the Agency problems in this area and the resolutions that had been effected to date. He again thanked the Agency representatives, including Mr. Maury who had joined the group near the end of the session.

In later discussion with Mr. Michaels, it was indicated that Representative Lipscomb appeared satisfied with the meeting and that there is no further follow up required. He noted in passing, however, that Representative Lipscomb probably will be discussing such matters further with the Department of Commerce.

25X1 10. [] Talked to Victor Zafra, Bureau of the Budget, concerning the Director's draft testimony on S. 1035. He had some minor editorial changes which he suggested and which I checked out with [] These are no longer applicable in the subsequent drafts to that which Zafra has. Zafra also said the BOB has been in touch with the White House staff and Mr. Macy, of Civil Service Commission, concerning S. 1035. It has been agreed that each agency should submit its own views on how to solve the problems created for that agency. There will be no Administration position on the bill as BOB believes this would facilitate the reporting out of the bill. Zafra said the information he gave me should be considered as a response to the Director's letter to the President. He also said the BOB will support the Agency's views for a total exemption.

1. [] Received from Mr. James Kendall, Counsel, Senate Preparedness Investigating Subcommittee, the transcript of the Director's testimony of Tuesday, 9 April, for safe keeping by the Agency. Receipt was given to the Committee for the transcript.

Mr. Kendall advised that the draft of the Committee report on the hearings is fairly complete but has not been reviewed outside the staff. He would appreciate, if possible, review of the draft and comment where appropriate, for the Committee's guidance on an informal basis. Mr. Kendall noted, however, that it would be necessary that the draft be held very closely for the reason that it has no sanction as yet as a Committee report. I advised Mr. Kendall that I would relay his request and be back in touch with him during the day tomorrow.

2. [] Met with Mr. Robert Michaels, House Appropriations Committee staff, who requested that I check with him late in the day tomorrow concerning a time on Wednesday for meeting with Representative Lipscomb to brief him on Agency external research projects. He also requested that I talk to him about a time for meeting with [] concerning the Agency budget estimate.

4. [] As a follow up to my call on Friday concerning the Director's availability on 13 June, I attempted to reach Mr. B. Benton Bray, Director, Manpower and Civil Service Subcommittee, but was advised that he will not be in the city today and possibly may not return tomorrow. In his absence I talked with his secretary and to Mr. Francis Matchett. Mr. Matchett indicated that he would be present at the meeting scheduled this afternoon with Chairman Henderson and was looking forward to meeting with Mr. Maury and Mr. Warner at that time.

OFFICE OF LEGISLATIVE COUNSEL

Friday - 7 June 1968

25X1

1. [REDACTED] James G. Hanchett, in the office of Representative Craig Hosmer (R., Calif.), called to inquire into the possibilities of having a representative of the Agency speak to a Junior Chamber of Commerce group. After explaining the Agency's general policy and that we have no speakers bureau, Mr. Hanchett withdrew his request.

25X1

2. [REDACTED] Called Mr. Robert Michaels, House Appropriations Committee staff, and advised him that an appointment had been made last evening with Mr. Mahon for 11:30 this morning. Mr. Michaels thanked me for the information and indicated on his own he would raise the question with Mr. Mahon of whether he desired Representative Lipscomb to be present at the meeting with Mr. Maury and Mr. Warner on S. 1035. Mr. Michaels also advised that he had not been able to meet with Mr. Lipscomb concerning the briefing by Mr. Duckett and Mr. Proctor on Agency external research.

I talked with Mr. Michaels later in the day. He advised that in his judgment Mr. Mahon did not "get the full drift of the S. 1035 problem due to the lack of time for discussion this morning". He himself had talked with Mr. Mahon later and ascertained that Mr. Mahon wants to talk to Mr. Henderson himself. Mr. Michaels noted, however, Mr. Mahon will not be able to see Mr. Henderson until next week. Mr. Michaels does not think the Chairman is disposed to write Mr. Henderson at this time. With regard to the Duckett/Proctor/Lipscomb meeting on external research, Mr. Michaels indicated that he had talked with Mr. Lipscomb who advised that he would like to have the meeting on Wednesday but will not be able to set a time until Wednesday morning. Mr. Duckett's and Mr. Proctor's offices have been advised.

25X1

3. [REDACTED] Received a call from Mr. John Reddan, Counsel, Hardy Defense Posture Subcommittee, House Armed Services, concerning the Industrial Security Board and its procedures. After checking with the Office of Security, I referred him to Colonel Benjamin Marshall, Chief, Industrial Security Division, Defense Contract Administration Services, Defense Supply Agency, located at Cameron Station, telephone: 974-7596 or Code 11 - 88550.

4. [] Called Mr. Bun Bray, House Post Office and Civil Service, Manpower and Civil Service Subcommittee staff, and was advised by his secretary, Miss Snipes, that Mr. Bray left last evening for the West Coast and will be back on Monday. I advised Miss Snipes that our Director is not available for appearance on Thursday, 13 June, as had been tentatively scheduled by the Committee. Miss Snipes advised that this should not create any problem and that Mr. Bray had had her notify NSA last evening as he was leaving that NSA appearance is being put over until the following week due to a change in schedule. Mr. John Macy, Chairman, Civil Service Commission, is now scheduled to appear and testify on S. 1035 on Thursday, 13 June. Although Miss Snipes had no explanation for Mr. Bray's failure to notify this Agency as well, she appeared confident that our date is being put over also.

25X1

5. [] Talked to [] General Counsel, NSA, several times during the day and furnished the name and telephone extension of Mr. Victor Zafra, Code 103-3736, who is handling S. 1035 in BOB. In his first call [] noted that he had not yet detailed the S. 1035 problem to General Carter, that the General was meeting with PFIAB, but that he expected to meet with him late in the day. In a later call he noted in part that he had talked with Mr. Zafra who had suggested that NSA furnish a copy of their position paper and that he would be pleased to clear it with his superiors and use the justification language from the paper in the Bureau position paper requesting exemption of NSA from the provisions of S. 1035. Mr. Zafra also noted that the Bureau of the Budget is not dependent upon the Civil Service Commission and Mr. Macy with regard to security agencies considerations but that they were looking to CIA and NSA for guidance in this regard.

25X1

25X1

6. [] Bill Woodruff, on the staff of Senate Appropriations Committee, said that Senator Mundt is interested in having the paper which we prepared for him on Communist aid to North Vietnam in March brought up-to-date. Woodruff asked if we would check and see if we wanted to make any changes in the paper. I talked to [] of OER, who is preparing an addendum sheet with new charts to reflect the changes that have occurred in the past three months.

7. Mr. Warner and I went to the Hill in connection with the problem of S.1035: (a) We explained our problem to Representative Bates who was at first surprised to learn that the Henderson Subcommittee was apparently unwilling to grant the Agency a full exemption. Mr. Bates also asked questions about whether there had not been cases of inappropriate "snooping" by security officers into the private affairs of our employees. We assured him there were very careful safeguards against any such tendencies, that our polygraph operators and other investigators of personnel matters were experienced and highly responsible officers and that complaints on this score had been minimal. Mr. Bates said he would try to be helpful and would begin by "taking some soundings" with members of the Henderson Subcommittee to see what the climate was and thereafter decide what action he could usefully take. (b) We called on Russ Blandford, House Armed Services Committee staff, who suggested that the Director should raise the problem promptly with the President. Blandford also suggested we draft a letter for Chairman Rivers to send to Chairman Henderson, with copies to other members of Henderson's Subcommittee, outlining reasons for an Agency exemption. Blandford explained that Chairman Rivers was out of town and probably would not return until 12 June. (c) We then called on Chairman Mahon, House Appropriations Committee, and were joined by Representative Lipscomb and Robert Michaels. Mr. Mahon expressed an interest in the problem during our brief conversation before he was called out and later Mr. Michaels advised he had discussed the matter further with Mahon and Mahon would probably raise the matter personally with Henderson but probably would not be disposed to write a letter to Henderson on our behalf. (d) We also explained the problem to Philip Kelleher, House Armed Services Committee staff, who had no specific recommendations but said he would do what he could through any personal contacts he might have with members of the Henderson Subcommittee.

25X1

8. Talked to Olive Hunt, in the office of Representative W. E. Brock (R., Tenn.), who called on behalf of a constituent who desires to receive the FBIS Daily Reports. I told Miss Hunt that we do not furnish these directly to individuals and explained the Depository Library System. I noted that the University of Tennessee does not receive the FBIS Daily Reports and explained the procedure for obtaining them through the Library of Congress.

9. George Murphy, Joint Committee on Atomic Energy staff, called and asked if I had obtained an answer to his request for an Agency opinion on the validity of the statements made in the de Vosjoli article in Life magazine. Mr. Murphy debated the issue and somewhat threateningly referred to the possibility of a letter to us but finally said "forget it."

[redacted] an Agency applicant. [redacted] had thought
she would EOD on 17 June but her appointment has been held up. I
explained to Mrs. Graves that we have some problems since it is almost

25X1 6. [] Met with Representative James Broyhill concerning our problems with S.1035. He was sympathetic and indicated he would do what he could but was pessimistic about the outcome. He explained he had received more mail in support of this bill than any other legislation now pending.

25X1 7. [] In the absence of Representative Thaddeus Dulski, Chairman of the House Post Office and Civil Service Committee, I briefly explained our problem to his Executive Assistant, Mr. Frank Fortune, who indicated that neither he nor Mr. Dulski had focused on the problem, and had been under the impression that since the Agency was not under Civil Service it would not be affected. I pointed out the language of the bill applying to all Executive departments and agencies. Mr. Fortune said he would clarify this to Mr. Dulski at the first opportunity.

25X1 8. [] I called Mr. Robert Michaels, House Appropriations Committee staff, and advised that Wednesday, the 12th, which had been suggested by him yesterday as a possible date for briefing Representative Lipscomb on Agency external research contracts is a good date for Mr. Duckett and Mr. Proctor. Mr. Michaels will confirm this with Representative Lipscomb today or tomorrow and will call me back.

25X1 9. [] Met with Mr. Charles Johnson, and later with Mr. Bun Bray, House Post Office and Civil Service staff. Mr. Johnson advised in effect that hearings on S. 1035 by the Manpower Subcommittee have been scheduled to start next week and it now appears that serious question has been raised within the Committee structure concerning CIA exemption from the provisions of the bill.

In meeting with Mr. Bray he advised that the Committee has scheduled Thursday, 13 June, for possible appearance by CIA representatives and representatives of NSA, but that due to other national events, the Committee schedule must be considered tentative. He advised that the Chairman desired that Agency representatives, as well as representatives of NSA, appear in open session following hearings on the first day with Mr. John Macy, Chairman of the Civil Service Commission, as the principal or lead-off witness. Mr. Bray did not indicate whether any other agencies were being invited to appear. Mr. Bray also noted that the previously suggested meeting between Chairman Henderson, Mr. Gross and Colonel White would no longer serve a useful purpose. It is the Chairman's desire that any information provided the Committee be given with the full Committee present and recorded by a reporter. Mr. Bray indicated that a letter to the Chairman would be necessary if the Agency is unable to appear in open session. (See Memorandum for the Record for details.)

The transcript, however, was not available at the moment. He will call me when it is available so that it may be reviewed prior to the publication by the Committee.

25X1 11. [redacted] Called Chairman George Mahon at his home and made an appointment for Mr. Maury and Mr. Warner to meet with him "around 11:30 tomorrow morning" concerning the scheduled Henderson Subcommittee hearing on S. 1035.

25X1 12. [redacted] Talked to [redacted] General Counsel, NSA, at various times during the day concerning scheduled hearings by the Manpower and Civil Service Subcommittee of House Post Office and Civil Service on S. 1035. [redacted] advised in part, that he had been called late in the afternoon by Mr. Bray's secretary and advised that the tentative schedule for appearance by NSA on Thursday, 13 June, has been changed and that they will in all probability be scheduled for the following week.

4. [] Met with Mr. Charles Johnson, Staff Director, House Post Office and Civil Service Committee, who advised the Manpower Subcommittee scheduled hearings to begin on S. 1035, the Ervin Bill, on Wednesday or Thursday, 12 or 13 June, dependent upon the availability of Chairman John Macy, of the Civil Service Commission, who will be the first witness. Mr. Johnson also advised me for the record that members of the Committee staff and Civil Service will be drafting a new bill on the subject. Due to the press of Committee business Mr. Johnson and Mr. Bray will be tied up for the remainder of the day and during the morning tomorrow. I plan to meet again with Mr. Johnson and Mr. Bray, or whichever is available, tomorrow afternoon.

Late in the afternoon I received a call from [] General Counsel, NSA, who advised that he had just talked briefly with Mr. Bray, who was still on the floor, indicating that the Committee is tentatively scheduling NSA and CIA to appear before the Committee on Thursday, 13 June.

25X1

25X1

5. [] Visited Philip Kelleher, House Armed Services Committee staff, to remind him of our continuing interest in expediting action on cost-of-living adjustments for retirees (H. R. 13705). Kelleher said that the Committee was preoccupied for the next several days with hearings on the Navy budget and he would be reluctant to try to interrupt these. Moreover, even if the Philbin Subcommittee was to hear and approve the Agency proposals, the further requirement of approval by the full Committee probably will not be feasible for some time because of the press of other business. However, Kelleher promises to push the matter as rapidly as possible.

25X1

6. [] Mr. Ed Feulner, House Republican Conference Committee, called in connection with their failure to receive the FBIS White Book over the last two weeks. At his request, I am sending him a copy of the Section by Section Analysis which was furnished to Charles Johnson, of the Post Office and Civil Service Committee staff. I pointed out that this was a very low key presentation and that he would be better guided by the earlier report which we had furnished to the BOB.

6. [redacted] Mr. Edward Proctor, Mr. James Brammell and [redacted] met with Representative Glenard Lipscomb and reviewed with him the National Intelligence Survey program as a follow up to questioning by Mr. Lipscomb in the Appropriations hearing of 17 May. Representative Lipscomb had been concerned, as a result of information provided in hearings with the Department of Commerce, about the capability and reliability of certain staffs within the Department and their involvement in the NIS program. He was also concerned about what appeared to him to be duplication of effort and cost particularly with regard to DIA. At the close of the meeting he noted his complete satisfaction with the program and stated that his questions, concerning the use of staffs within non-USIB agencies and duplication, had been answered fully. In addition, he noted his appreciation for the time and effort involved in coming by to discuss this subject with him. 15. George Murphy, on the staff of the Joint Committee on Atomic Energy, called and again brought up the subject of de Vosjoli and his Life magazine article. Murphy started off asking on an "informal basis" what the Agency position was on the Life article. In a rather lengthy conversation I avoided any direct answers to this question, and Murphy ultimately asked if I would raise with Admiral Taylor our opinion of that portion of the Life article which described the defector, Martel, as saying that French KGB agents in NATO headquarters in Paris were so strategically placed and so facile in their methods that they could produce on two or three days' demand any NATO document Moscow requested, and furthermore, that the volume of NATO documents available to Moscow was such that KGB officers freely used the NATO numbering system in identifying them. Murphy raised many other questions rhetorically but pressed for an answer only on this one. I told him I would check and be back in touch.

Murphy mentioned in passing that the Joint Committee still had not received an Agency response to John Conway's letter to us on this case. I told Murphy that I had discussed this matter with Conway and indicated our agreement to respond if he wished, although the subject had been rather thoroughly covered during Murphy's and Conway's luncheon visit to the Agency. I added that Conway had then said that he wanted to discuss the matter with Chairman Holifield first and then would let us know whether a letter was necessary. Within a matter of minutes after this conversation, Murphy called me again saying that he had discussed this with Conway who said he had talked with Holifield and that in fact they would like a written response. I told Murphy that it would be forthcoming but would repeat essentially what Admiral Taylor had told them personally. 25X1

17. [redacted] Congressman Pucinski called again regarding the application of [redacted] I had previously advised Pucinski's office that we had an unusually large number of well qualified college graduates this year and had not accepted [redacted] for Agency employment. Pucinski said he thought [redacted] was well qualified and had hoped that we would be in a position to use him. I told the Congressman that [redacted] college record was not at all impressive but, at his request, agreed to ask our personnel people to take another look at the case.

OFFICE OF LEGISLATIVE COUNSEL

Saturday - 1 June 1968

1. George Pavlik, Legislative Assistant to Senator Bourke Hickenlooper (R. Iowa), called to say they have received a letter advertising the book dealing with the identity of 3,500 Agency employees. He said it is a form letter which has gone to everyone in Congress and thought we might be interested in receiving a copy. I thanked him for his interest and suggested that he send a copy to this office.
