

23 February 1966

MEMORANDUM FOR THE RECORD

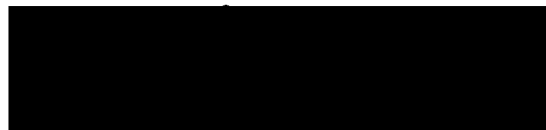

SUBJECT: Civil Service Commission Comments on the CIA  
Legislative Package

1. With regard to the February 14 comments of the Civil Service Commission to the Bureau of the Budget on our legislative package, I called Mr. Francis Cody, Retirement Division (183-7501). With regard to the Commission's comments concerning commencing dates of retirement annuities and termination of annuities to retirees and survivors, it is the Commission's advice that the "day after concept" for the commencement of retirement annuities simplified the administration of retirement benefits. They are not adamant in this position but recommended it for serious consideration.

2. Mr. Cody was somewhat apologetic for the lack of clarity in the Commission's comments to BOB with regard to Section 2(1), Annuity Commencement Date, of the CIA proposal.

3. Mr. Cody is a most knowledgeable individual on this overall subject and stands ready to provide further assistance should it be needed in the development or administration of the program.
