25X1 5. [redacted] Talked to Mr. Bernard Martin at BOB concerning the Agency legislative package. Mr. Martin advised that he had received our material this morning, had reviewed it, and passed it on to the interested review components within the Bureau. His quick review did not indicate a need for forwarding it outside the Bureau for review. He noted that their normal internal processing can run six weeks or more but indicated that he would try to shorten the process. He will check the various offices in a week or so when he feels they have had enough time to at least review the paper and will call me.
