10. (Unclassified - GLC) Mr. McAfee, I&R of State Department, called to say that the Department had received a request from the Senate Foreign Relations Committee for a report on the McCarthy intelligence inquiry resolution (S. Res. 210). He is interested in any thoughts we might have on the subject. I told McAfee that the Agency had also received such a request from the Committee, that we had been in touch with the Staff Director, Carl Marcy, who saw no need for hasty action on these routine requests and we had also been in touch with the Bureau of the Budget which is not disposed toward hasty action at this point. I told McAfee I merely mentioned this as information which might be of use to them adding that we did not propose to send a report to the Committee at this time. McAfee said he was very pleased to receive this information and expressed his feeling that the Department do likewise.
