MEMORANDUM FOR: [redacted]

25X1A

1. I got this up to Dr. Wheelon yesterday when I heard he was going over to the Pentagon (Tab A). However, he went directly from the morning meeting to the [redacted] briefing and never got a chance to look at this. I believe the original is still in his in-box.

25X1A

2. The main point in getting the memorandum to him was in case the subject arose regarding the publications. I found out later that the purpose of his visit was entirely different from the usual monthly meeting he plans to have with [redacted]

25X1A

3. I called [redacted] the other day and determined that he still has not completed his review of our publications. Perhaps this memorandum will provide a slight prod in the right direction.

25X1A

4. Can you give me any guidance on whether [redacted] [redacted] will be used as intermediary on passing this information to [redacted] and acting as the repository for any publications sent over there. [redacted] now has nearly every clearance in the book, at the request of Dick Helms (see Tab B).
