

22 November 1966

MEMORANDUM FOR THE RECORD

SUBJECT: ABM Problem

25X1A  
25X1A  
25X1A  
1. I tracked down some of the pertinent material relating to the ABM problem including the book prepared for General Reynolds, CCPC. I have also talked with most of the people you mentioned today- [REDACTED] and with [REDACTED] office. She is out today but should return tomorrow. The reason for her deadline of noon today for a draft memorandum from DD/S&T was due to a scheduled meeting on Tuesday morning. Apparently this meeting has been put off, and we now have a deadline of 28 November to provide this information to her.

25X1A  
2. I realize that Max has had the action on this thus far but that he may not wish to undertake this new request from CCPC. Thus, if no one else is available to prepare the draft memorandum for [REDACTED] as requested, I will undertake it.
