

DD/ST# 5149-66/1

29 October 1966

25X1A

NOTE FOR: 

REFERENCE: DD/S&T 5149-66 dated 13 October 1966

25X1A

I have a vague feeling that a similar letter did come into OSI during my tenure there although I cannot recall precisely when or who took care of it. As a general rule, we would follow up on reports of ESP and other related phenomena provided we have access to the original source. In this case, the subjects are not available. Therefore, I would suggest a letter be sent to  thanking him for his letter and interest, indicating that the Agency does not support research and development in these areas but is of course very much interested in any results which he may achieve which have significance to intelligence.

Here are two letters to the DCI which I mentioned to you on the phone. I would appreciate any comments which you or your colleagues may have on the individual or his comments.

DDP files show no record of Subject but OO Contact records reflect that OSI had an interest in contacting him in 1962 but that this apparently failed to materialize.

Thanks alot.

*No OSI comments.  
Cannot locate OSI individual who was interested in [Redacted] in '62. Probably no longer in office.  
ORD possibly interested in such research.  
Outside Agency, NIH would be logical place for [Redacted] to contact [Redacted]*
