

1 November 1966

25X1A

NOTE FOR: [REDACTED]

25X1A

1. Attached is a listing of ORD contacts with the Navy, indicating also the nature of the contact and the principal person with whom the Navy deals. I have asked [REDACTED] to prepare a similar listing for contacts with the other services and DOD. I think this is very useful information for the DD/S&T to have, particularly when senior representatives of the services are visiting the Deputy Director that he may have this background information. I think it is also useful information for the Agency to have in keeping track of its relationships with the military.

2. Perhaps you might wish to mention this at the Staff meeting and ask the other Executive Officers to provide similar type information.

Bill
