

18 SEP 1968

Carl E. Duckett

Deputy Director for Science and Technology, CIA

Central Intelligence Agency, Washington, D. C. 20505

22 March 1923

Swannanoa, North Carolina

* Johns Hopkins University (Engineering) 1943

*As an electronic scientist and guided missile engineer, Mr. Duckett completed his formal education as part of a World War II government-sponsored engineering program at Johns Hopkins University in 1943. Experience has been largely in the management of government organizations concerned with guided missile test range operations and scientific intelligence analysis. He participated in early radar development at Westinghouse Corporation and in recent years served on a number of national level committees and panels on various guided missile and space programs.
