By Mr. RANDOLPH:

S.J. Res. 247. Joint resolution expressing the support of the Congress that the United States should convene in 1971 an International Conference on Ocean Dumping; to the Committee on Foreign Relations.

S. 4570—INTRODUCTION OF A BILL TO AMEND THE WILD AND SCENIC RIVERS ACT

Mr. HART. Mr. President, I am introducing a bill designed to stop development temporarily on scenic sections of Michigan's Au Sable and Manistee Rivers. The bill would add those sections to the list of 27 rivers under study for possible addition to the National Wild and Scenic Rivers system.

The sections affected by this legislation would be: the Au Sable, downstream from Foot Dam to Oscoda and upstream

from Loud Reservoir to the source of the river, including the principal tributaries but excluding Mio and Bamfield Reservoirs; and the Manistec, upstream from Manistee Lake to the river's source, including its principal tributaries but excluding Tippy and Hodenpyl Reservoirs.

These rivers and wildlands through which they pass are great resources for the people of Michigan and the Nation. They are, however, greatly endangered by the all-too-common threat of developments that would mar their scenic beauty and dilute their wild character. Much of the land along the Au Sable and the Manistee—including its tributary, the Pine River—is owned by the Consumers Power Co. They have in the past leased some of these lands for private development. Proposals for further leasing this spring focused widespread attention on the endangered future of these river lands. To its credit, the power company has delayed its leasing plans for the moment.

Nevertheless, the threatened future of these rivers is clear. We must move rapidly to forestall that threat, and I am most eager, as are Michigan's conservation-minded citizens, to cooperate in this endeavor.

Development is prohibited while a river is under study. If it is determined that a river should be protected permanently, additional legislation is required to add it to the wild rivers system.

The Departments of Interior and Agriculture, which administer the wild rivers program, have indicated interest in the Michigan rivers.

I am introducing the legislation at this time, not expecting that it will be passed in the few remaining days of this session, but in hopes that it will afford the rivers some degree of protection and will encourage the Consumers Power Co., to discontinue further leasing of its lands and perhaps gradually to phase out existing leases.

The Manistee and Au Sable Rivers have long been recognized as among the outstanding recreational rivers in the Midwest. At the national level, the Manistee River was recognized in the 1963-64 wild river study conducted by the U.S. Department of Interior and Agriculture as meeting national criteria, and the wild and scenic rivers bills introduced in Congress by the administration in 1967 and 1968 included the Manistee in the study category on rivers.

At the State level, both the Au Sable and Manistee were recognized in a 1965 Michigan Department of Natural Resources report to have natural and recreational values of major significance, and it was recommended that several stretches of riverfront be kept free of development. Again, in the foreword to a Department of Natural Resources Bulletin entitled, "Michigan's Au Sable River: Today and Tomorrow," written by G. E. Hendrickson and published in 1966, Gerald E. Eddy, then Chairman of the Michigan Water Resources Commission, stated:

The Au Sable is perhaps one of the most beautiful rivers in Michigan. It is a river that is loved by more people than any other Michigan river. Cool clean flowing water, natural cover, and gravel spawning beds make it an outstanding trout stream. Its

natural beauty attracts canoeists, campers, and cabin dwellers. The kind of excellence typified by the Au Sable, however, is fragile and can easily deteriorate through neglect, mismanagement, and apathy.

Once again, in March of this year, in its response to Michigan House Concurrent Resolution 356, the Michigan Department of Natural Resources reiterated its previously stated recommendation that substantial sections of the Au Sable and Manistee riverfronts be left undeveloped. Specifically, the DNR response indicated that the lands consumers proposed to lease fell within the sections DNR had recommended for preservation.

Early in the new Congress, I will introduce similar legislation and will urge early consideration of it.

The PRESIDING OFFICER (Mr. SPONG). The bill will be received and appropriately referred.

The bill (S. 4570) to amend the Wild and Scenic Rivers Act by designating certain rivers in the State of Michigan for potential additions to the National Wild and Scenic River Systems, introduced by Mr. HART, was received, read twice by its title and referred to the Committee on Interior and Insular Affairs.

ADDITIONAL COSPONSOR OF A BILL

S. 4238

At the request of the Senator from Hawaii (Mr. INOUYE), the Senator from New Jersey (Mr. WILLIAMS) was added as a cosponsor of S. 4238, the Universal Enrollment Act.

ESTABLISHMENT OF A FEDERAL BROKER-DEALER INSURANCE CORPORATION—AMENDMENT

AMENDMENT NO. 1095

Mr. BROOKE. Mr. President, I rise today to discuss matters of utmost importance to all Americans the health and stability of our national securities markets and investor confidence in these institutions.

In recent years, the number of Americans owning securities has grown significantly to the point where more than 30 million Americans presently own shares in U.S. industry including 1,214,000 citizens of my own State. This growth has been possible because of the trust and confidence investors have placed in our national securities markets, the brokers and dealers who represent them, and the regulatory bodies which protect the public interests. Congress has contributed to this confidence by its belief that industry self-regulation, coupled with oversight by the Securities and Exchange Commission produces an effective regulatory structure.

Events have taken place in recent months involving the failure of a number of larger brokerage firms—as well as the "shotgun marriages" of still others—which have, however, weakened investor confidence and cast a cloud on industry self-regulation as a viable concept. An estimated 150 brokerage firms have entered into liquidation. Hundreds of others have had to merge or cut back on

and other sources before the Senate is asked to take action. Serious question has been raised as to what the real purpose was, and I would not like to see the Senate commit itself without more knowledge as to what really was the background. I do not wish to sidetrack the resolution altogether. I think it is significant, and I would undertake to report it back to the Senate within 10 days.

Mr. DOLE. As the Senator from Arkansas has pointed out, we have discussed Senate Resolution 486 and some of the questions raised by the Senator from Arkansas. As I indicated to him, my purpose and my hope is that the entire Senate will have the opportunity to express its will on the resolution. I have no objection to its going to the committee to be reported back prior to adjournment, with the understanding that the Senator from Kansas believes we will be here 10 more days. For that reason, I have no objection to the Senator's request.

Mr. FULBRIGHT. Mr. President, I move that the pending resolution be referred to the Committee on Foreign Relations with instructions to report it back within 10 days.

The PRESIDING OFFICER (Mr. BYRD of Virginia). Without objection, it is so ordered.

COMMUNICATIONS FROM EXECUTIVE DEPARTMENTS, ETC.

The ACTING PRESIDENT pro tempore (Mr. ALLEN) laid before the Senate the following letters, which were referred as indicated:
