15 June 1970

NOTE FOR: Deputy Director for Support

Just a note to let you know that our Psychological Panel visited with us the latter part of last week. Among the various items discussed was Senator Ervin's Bill. The Panel was somewhat surprised that the House was likely to pass the measure. A member of the Panel, Dr. Kenneth E. Clark, Dean of the College of Arts and Sciences, University of Rochester, stated rather firmly that he would welcome the opportunity to testify before the House committee and he inferred there were several others who would be happy to join with him. I am including some biographic information on Dr. Clark.

Director of Medical Services
