

**INTERNAL USE ONLY**

Journal - Office of Legislative Counsel  
Wednesday - 19 August 1970

Page 2

5. (Internal Use Only - LLM) [redacted] General Counsel, NSA, called in the interest of coordinating views on two congressional committee requests: The first stems from a 20 July 1970 letter from Senator Sam Ervin, Chairman of the Constitutional Rights Subcommittee, concerning DOD participation in a computer data bank. The second request was from Representative John E. Moss, Chairman of Foreign Operations and Government Information Subcommittee, for information relating to telephone monitoring equipment. I told [redacted] that we had not received a request from Senator Ervin on computer data banks and [redacted] agreed that the inquiry was primarily related to allegations that the Army was keeping track of individuals engaged in riots and disturbances in the United States. I brought [redacted] up to date generally on our handling of the Moss inquiry and told him that [redacted] would be glad to talk to him further and would call.
