DIARY NOTES

DD/S

10 May 1966

1. Operations School, OTR, and Support Positions in DD/P: I invited

[redacted] to discuss proposals concerning the above two subjects.

I proposed that approximately 85 instructor positions in the Operations School of OTR be designated as DD/P positions and that the present OTR incumbents in those positions could elect to go into the "D" Career Service or remain with DD/S. If they want to take "D" then DD/P would be responsible for the full management of their careers. If they remained with DD/S, I would be responsible for their eventual assignment within OTR or to some other position in DD/S. I also proposed

that a survey be conducted in DD/P to identify all Support positions in DD/P, including headquarters [redacted] and overseas and that these positions be designated to be filled by DD/S careerists. The present incumbents of the designated positions could elect to come to DD/S or remain with DD/P on a time-phase basis.

Those who remain with DD/P would be moved out of those positions and replaced by DD/S careerists. [redacted] will take this proposal to Des FitzGerald and advise of his reaction. The survey to be conducted of DD/P would be by the Office of Personnel and [redacted]

2. Des FitzGerald called to ask for two more weeks on the Agency contracting study with universities. I agreed to this and have asked Colonel White for an extension of our deadline for two weeks from 10 May.
