## DIARY NOTES

DD/S

19 September 1966

25X1A

Historical Record of DD/S:
means by which the history of the DD/S Offices can be compiled. He suggested a
Historical Board of three to set the terms of reference for our program and to
produce a narrative chronology of each Office and its principal events and activities.
He suggested that this be a full-time job for a limited period of time either by
retirees or near retirees so that they can do a complete job and interview people
who participated in these special activities. The history should make reference to
authorities and agreements under which the DD/S Offices operate. Papers can be
of any classification desired.
